

STEAMING HOT WATER TAPS

The modern kitchen is the heart of the home, where **we all love to gather and spend time with friends and family**. With space constantly in demand, we all need clever ways to simplify cooking and de-clutter the kitchen.

ENERGY EFFICIENT

An InSinkErator steaming hot water tap **uses less energy than a 40-watt light bulb**

Smart looking for smart cooking

Instant tea, coffee or any other hot drink is always nice. However that's just the tip of the iceberg when it comes to how many uses you'll find for your 3N1 steaming hot water tap.

Once you have one, you'll wonder how you ever managed without it. No kettles, no leads, no clutter. Just up to 98°C steaming hot filtered water at the touch of a lever.

- Make a cuppa in 8 seconds
- Space saving for smaller kitchens
- Save electricity by not having to heat more water than you need
- Simplify kitchen tasks
- On demand steaming hot water for cooking

Let the 3N1 steaming hot water tap do the work for you
