

T3 LITEBOX

ULTIMATE LIGHTBOX SOLUTION

The T3 Litebox is one of the most diverse on the market due to its variability in sizes and display options.

Using the patented T3 twist lock, no tools connector it is quick and effortless to assemble. Taking one individual under 45 minutes to construct it is one of the most time and cost efficient currently available on the market. The specially designed profiles are perfect for fabric graphics and can be cut to any length which means that custom can become standard.

Also being supplied in freestanding and single or double sided it offers the ultimate versatility in display options for exhibitors of stand designers. The T3 Litebox comes in a variety of sizes ranging from 1 metre to 2 metres

There is also a specially designed travel case that the Litebox profile packs into. Featuring wheels that allow for the case to be easily

transported to the display venue and being compact in design it can be packed into the back of the small car or van.

By combining a Litebox with T3 Affinity posts it allows for a variety of display options and accessories to be utilised for your display. The posts allow for touch screen monitors, shelving and brochure holders to be attached making the Litebox a fantastic all inclusive display feature to have on a stand. The posts also add extra strength and stability to the Litebox.

Easy to transport

No tools required

Under 10 mins build time

1 m or 2 m sizes

Packed into a single travel case

Single person to assemble

Features of the T3 Litebox solution

Side plates

1. Attaching a side plate to your T3 Litebox allows it to be a secure free-standing display structure. These plates are easy to attach and compact to store.

T3 Adaptor

2. By using our T3 Adaptor you can combine your T3 Litebox with our T3 Affinity posts. This allows you to add a number of display accessories and features to your Litebox.

Graphic profile

3. We have developed specially suited profiles for our Litebox that accommodate all fabric graphics. These light weight and modular profiles make the T3 Litebox easy to transport and quick to build.

Adding T3 Affinity

By combining your T3 Litebox with T3 Affinity posts makes your Litebox an all round product display structure. The T3 Affinity posts allow you to use all of the retro fit accessories as features on your Litebox. These features include shelving, tablets holders and so much more. The Affinity posts and feet also provide extra stability and security to your Litebox.

For more details about the T3 Affinity addition contact a member of staff or visit our website.
