

Shelving

PRODUCT CODE: **SEE BELOW**

Shelving || PRODUCT GUIDE

CHSSA

Channel Shelf Support Adjustable

Save time and money by creating shelving schemes without needing additional cross tubes and connectors to support the shelves.*

Easy twist locking wheel

30° Fitting

45° Fitting

Now you can build in flat or sloping shelves at 30° or 45°, using our brand new fixed and adjustable supports.

*Works with channel tube frames only.

Adjustable Support Shelf

Where shelf height adjustment is required we recommend our Adjustable Support. This fitting is ideal for on-site adjustments or if you want to support other accessories. They locate into the channel tube in the same way as our corner brace, using a metal plate and are secured by tightening a finger wheel.

NEXT-WAY

t3 Systems are a fully patented system and covered by a lifetime guarantee.

CHSSF

Channel Shelf Support Fixed
(CHSSFM8 - Channel Shelf Support
Fixed with M8 Insert)

Fixed Support Shelf

We recommend the Fixed Support shelving system when the position of the shelves can be predetermined.

The support slides into the tube profile and is supported from below by our decorative trim insert which is cut to length according to the position of the shelf. A second piece of trim slides in above the support to create a seamless look.

The number of shelves is only limited by the spacing you require.

Corner Brace Shelf

Cantilevered shelves can be easily created using the existing T3 corner brace.

This makes for an extremely strong shelf when positioned correctly.

Retro Fitted Shelf

CHSST

Channel Shelf Support Twist-in

These are very versatile and can be fitted after your framework is completed. The fitting will accommodate 2 thicknesses of panel; 5mm & 18mm.

CHPSC
