RETAIL SOLUTIONS

T3 LITEBOX

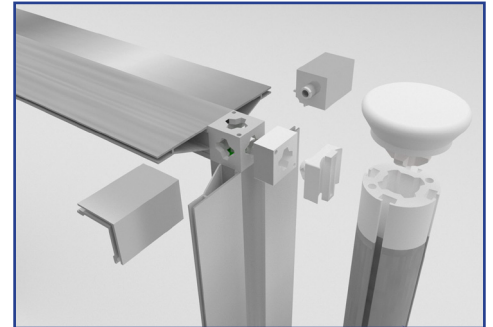

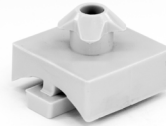

Make a huge visual impact at your next event.

Our newly innovated T3 Litebox solution allows you to create an eye catching and vibrant display in a matter of minutes without the need for tools or levers to do it.

Key features for the T3 Litebox :

- Designed using the famous T3 patented twist lock assembly method which means no need for tools
- 10 minute assembly time
- Flat packed into a single wheeled bag that fits into the back of a car
- Supplied in a single or double side profile
- Designs come in a 1 metre or 2 metre length with further customised sizes available

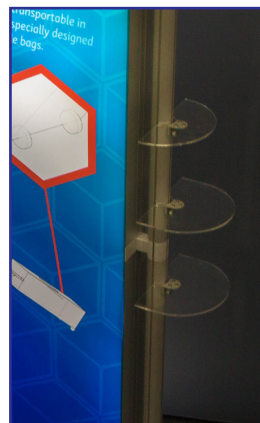

AYA1004-T3 ADAPTOR

The T3 Litebox use the T3 Adaptor to attached the profiles to Affinity posts. This simple accessory also allows for the T3 Affinity system can be combined with the famous T3 System, (view our T3 Adaptor info sheet for more details)

The inclusion of the Affinity posts means that our broad range of Affinity accessories such as shelving, brochure hangers and monitor holders can be used.

This allows for your T3 Litebox to become a multi-functional multimedia display.

Varying shapes and sizes of shelving units attached the Litebox (view our catalogue for a full display of accessories)

Our lights provide the Litebox with a brilliant bright white light that makes this display so eye catching.
