SPACE WALL

1 SIDED LINEAR

KEY FEATURES:

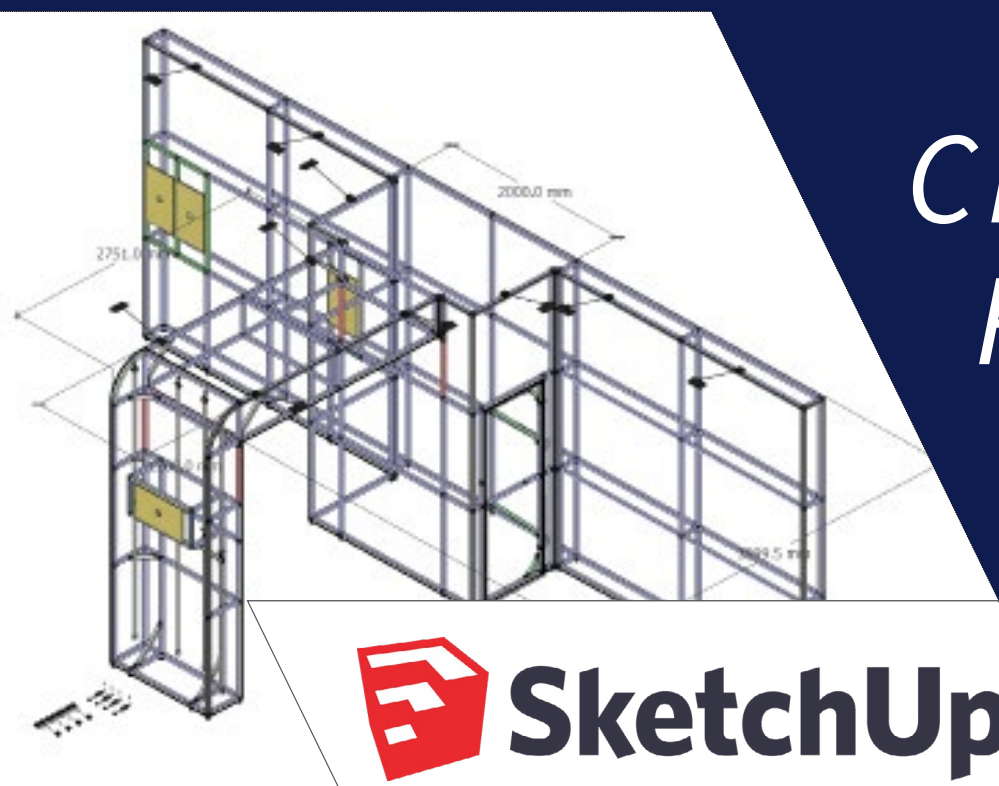

Create large storage areas with T3Frame doors for easy access. Accessorise your storage area with clothing rails, hooks and shelving for all your event requirements. LED spotlights (SPLCHR) provide your structure with a bright and luminous finish.

BONUS FEATURES:

T3Frame Doors can be made in custom sizes including curved or angled orientations. T3Easycube is your go to provider for counter solutions in any graphic type.

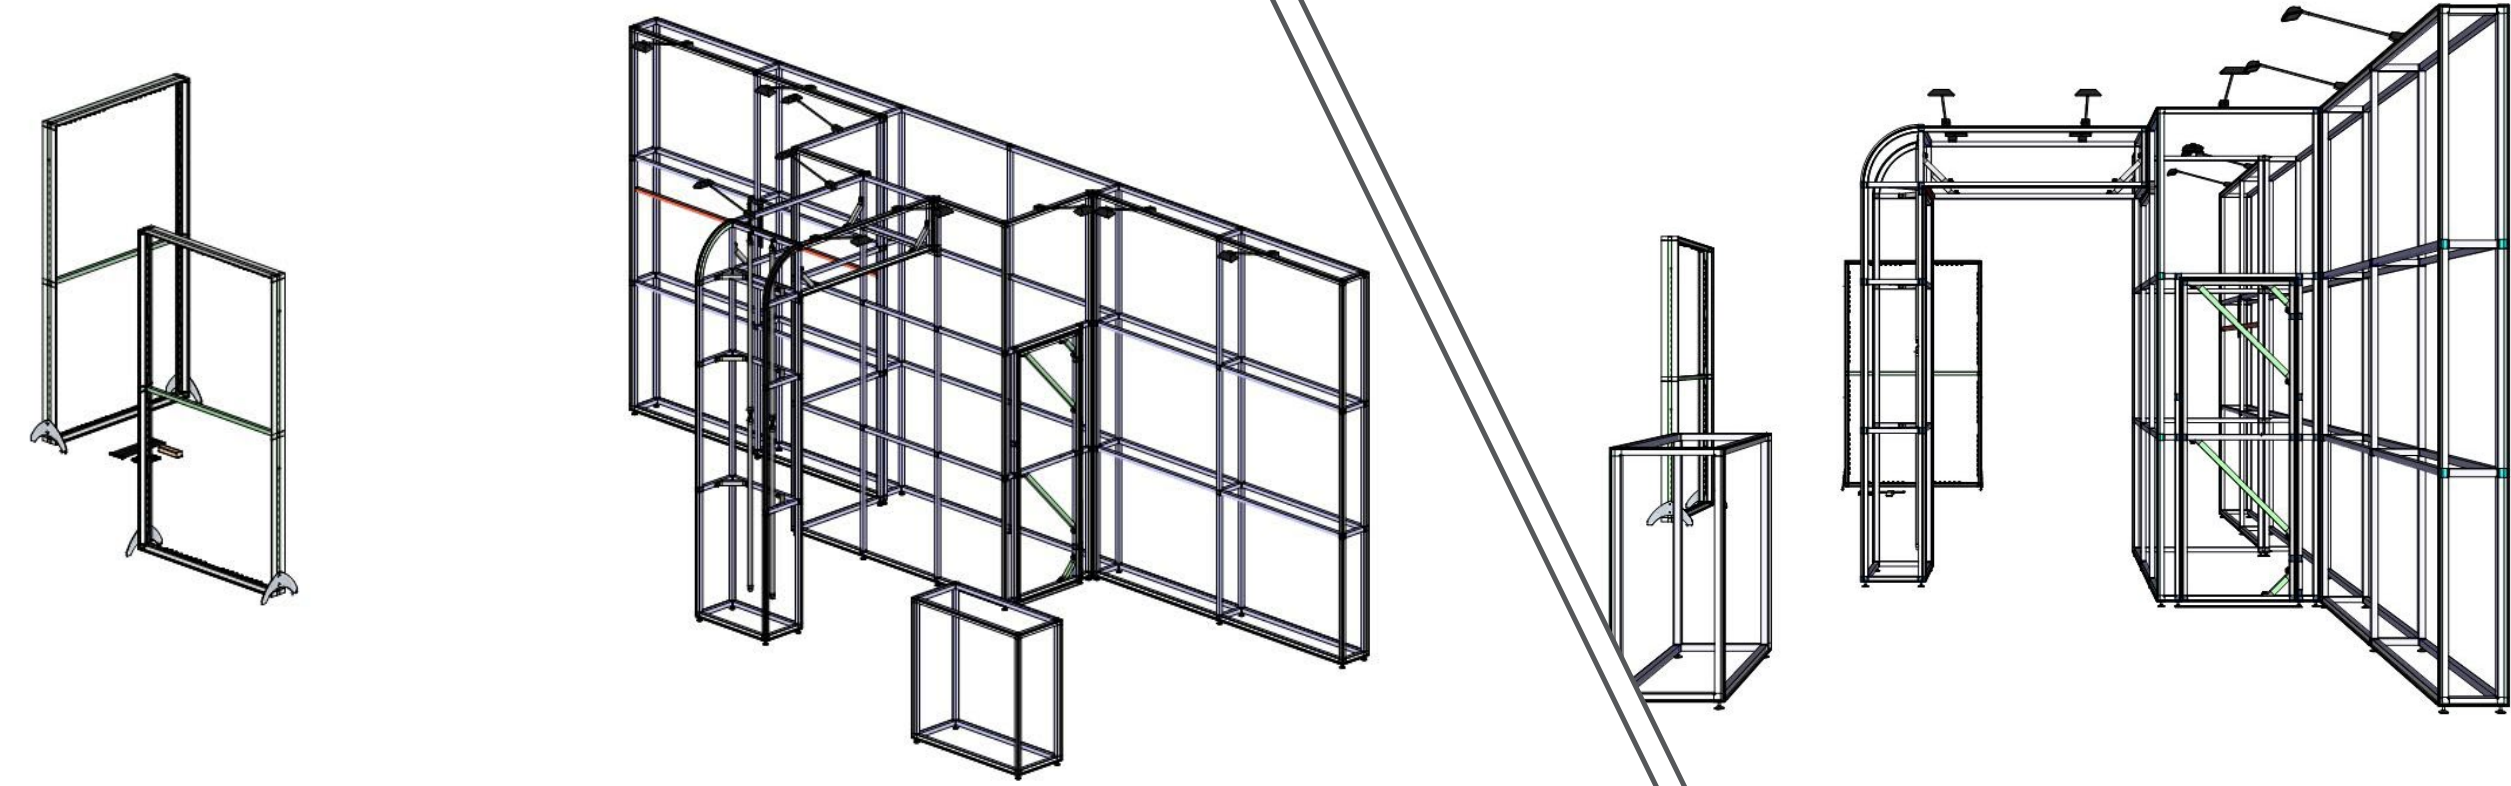

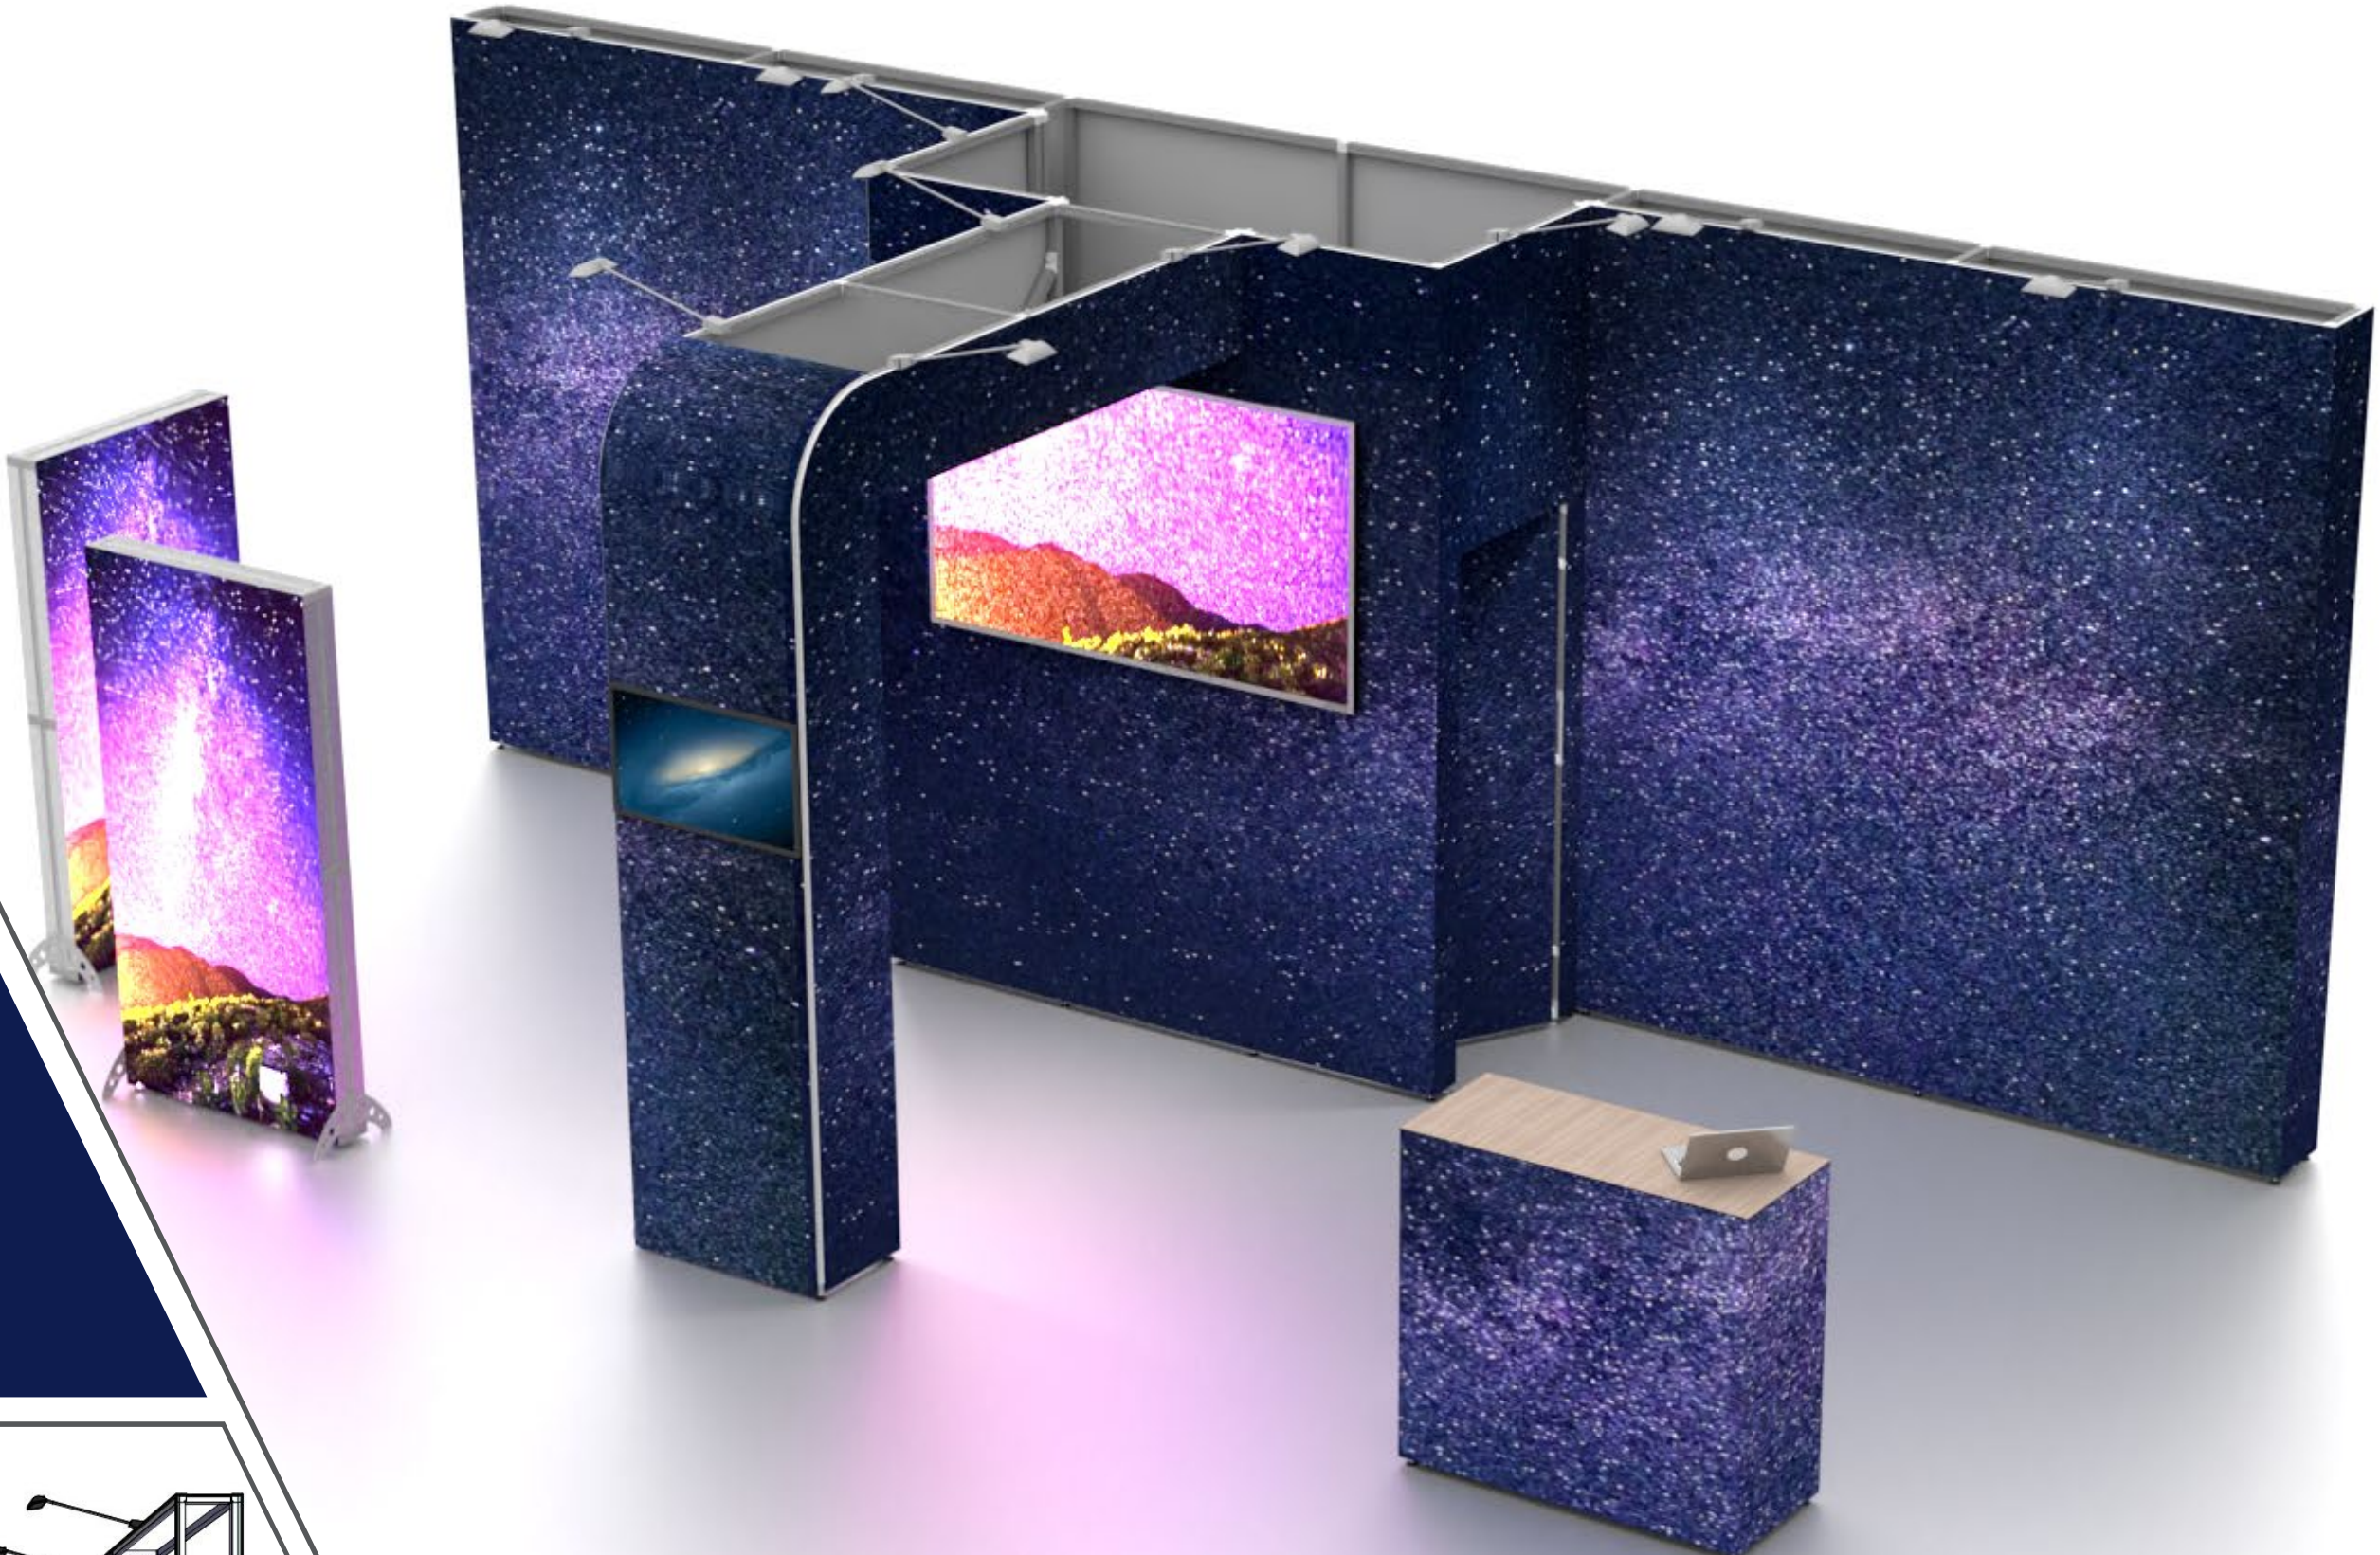

STANDARD DOOR - CODE /DSF

COFFEE CORNER

2 SIDED / CORNER

KEY FEATURES:

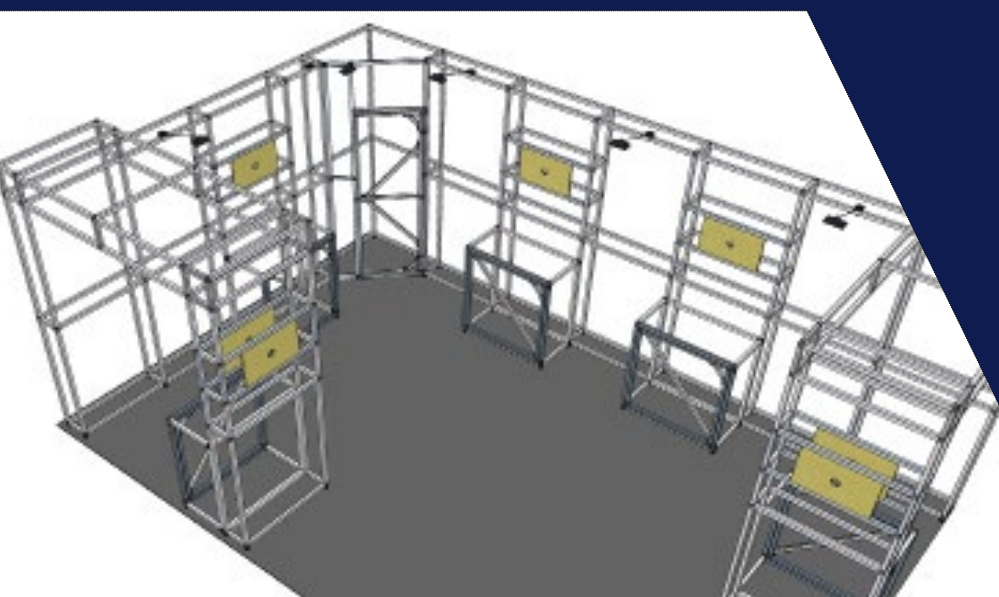

Angled storage area, created using Channel Angle (CHANG). This feature piece was then coupled with a T3Frame door to create a modular access point to the storage area. Multiple screen mounts (AFSM) were used for integration of tv monitors. The archways were simple to install and retained their structural shape by including our Braces (CHBRS) for rigidity.

BONUS FEATURES:

Add an extra feature to your stand by creating custom counters for product storage .

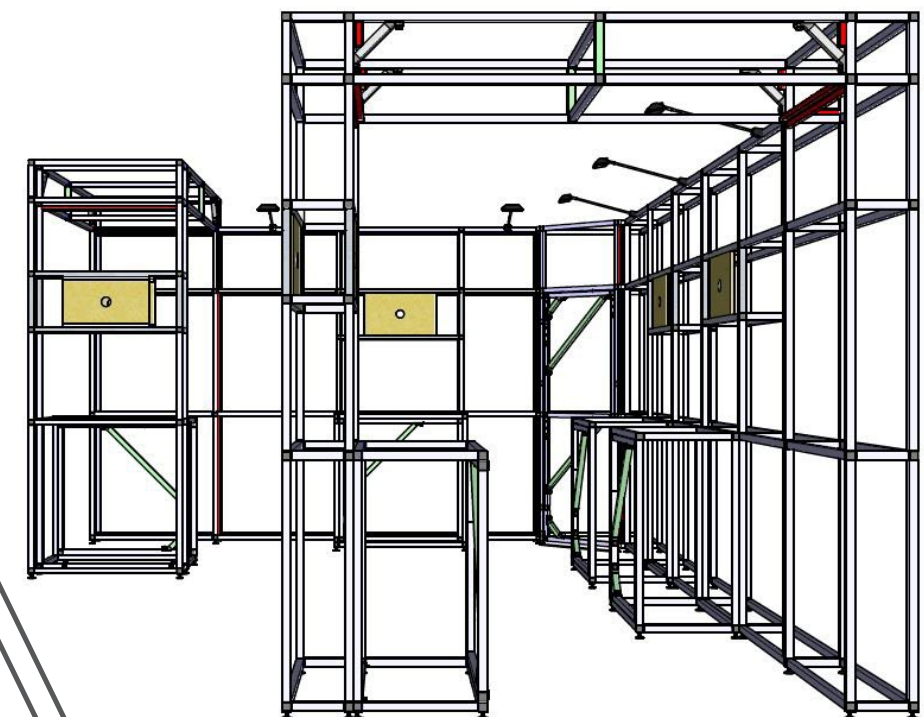

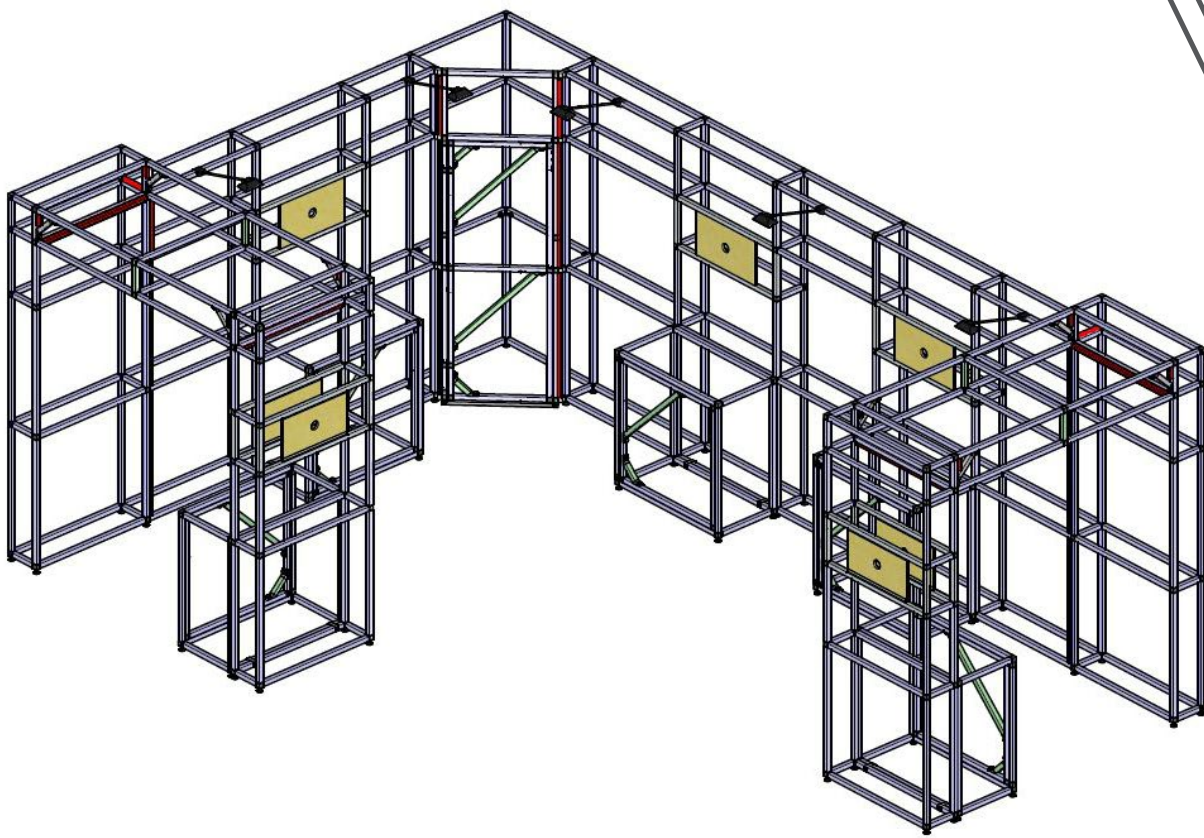

SCREEN MOUNT - CODE AFSM

RACING STALL

2 SIDED / CORNER

KEY FEATURES:

T3frame can be used to create ceilings yet still retain its modular qualities. Ceiling sections can be integrated into walls and storage areas with a simple twist and lock.

BONUS FEATURES:

Structural T3Affinity upright posts provide the opportunity to add tablets, brochure holders and shelving. Flanking walls can be created using T3Flexi-Curve (UFXC) profiles.

BOOK WALLS

OPEN / ISLAND

KEY FEATURES:

Creating truly unique shapes with our made to measure T3Frame Curves. Both our T3 Angles and curves can be manufactured to almost any degree providing unrivalled design freedom. Double joiners (DJ30) were used to connect the pages together resulting in a truly modular solution saving on transport and storage.

BONUS FEATURES:

Our Curves can be configured to take multiple graphics options including textile, rigid and roll up.
