VITROLIFE GROUP™

CooperSurgical®

For many couples and individuals, there is a strong desire to fulfill the dream of having a family. Those of us in the fertility industry understand that the pathway to parenthood is unique for everyone. As assisted reproductive technologies are becoming a prevalent factor in many of these pathways, it is vital that our industry works to create a better fertility journey for all.

As a trusted leader within reproductive solutions, we believe that we, at CooperSurgical, can play an impactful role in this effort. For decades, CooperSurgical has developed, acquired and expanded the availability of products and services that make a difference in fertility care. From artificial intelligence to digital connectivity, we are at the forefront of delivering cutting-edge technologies to fertility treatments. And we are committed to building on our legacy and leadership and deepen our partnerships to accelerate these advancements.

INTERNATIONAL SPERM & EGG BANK

Cryos International is the world's largest sperm and egg bank. We offer delivery to over 100 countries and have more than 1,000 carefully selected donors of many different ethnicities and phenotypes for your patients to choose from. Quality, compliance, and safety are of utmost importance at Cryos, which is why we are ISO 9001:2015 certified and always committed to meeting the highest quality standards. We offer an easy ordering process as well as fast and reliable shipping, and the ability to register pregnancies online. With 35 years of experience and a professional, dedicated team committed to helping others achieve their dreams of becoming parents, you can feel confident in your decision to choose Cryos as your business partner.

**EUROPEAN  
SPERM • BANK**

European Sperm Bank is a sperm bank a cut above the rest. Not just because of what we do, but also because of how we do it.

Our mission is to make a meaningful difference through the gift of life. We are set upon selecting and delivering the best sperm, offering the best service, and tailoring individual solutions that meet the needs of our clients.

Ferring is a research-driven, specialty biopharmaceutical group committed to helping people build healthy families and live better lives. Ferring is a leader in reproductive medicine and maternal health, and in specialty areas within gastroenterology and urology.  
[www.ferring.com](http://www.ferring.com)

As a leader in Women's Health Ultrasound, GE HealthCare understands the impact that infertility has on patients' lives and your business. That's why our Voluson™ ultrasound systems continually push the boundaries of Reproductive Medicine imaging to give you simple, yet innovative tools to help you and your patients achieve their dream of a successful pregnancy.

Gedeon Richter er et europeisk legemiddelselskap, forpliktet til å forbedre helse og livskvalitet globalt. Vi har en lang historie, helt tilbake til 1901, da selskapet ble grunnlagt av farmasøyten Gedeon Richter. Hovedkontoret ligger i Budapest, Ungarn og vi har virksomhet mange steder, hovedsakelig i Europa. Antallansatte er omtrent 13 000 personer. I Norden er vi 30 ansatte. De viktigste terapi områdene er kvinnehelse, sentralnervesystemet og bioteknologi. Blant disse er kvinnehelsetjenesten overveiende i fokus i Norden. Av kvinnehelse produkter tilbyr vi legemidler innenfor områdene prevensjon, fertilitet, myomer i livmoren, endometriose, overgangsalder og gynekologiske infeksjoner. I 2022, lanserte GR ikke mindre enn 5 nye produkter i Norden.

I tillegg til å være en leverandør av produkter for forbedring av folks livskvalitet, engasjerer GR seg kontinuerlig i programmer med samfunnsansvar, hvorav ett er å støtte SAVE THE CHILDREN og deres verdensomspennende prosjekter. Vi donerer et betydelig årlig bidrag til Redd Barna og i samarbeid med STC arrangerer vi årlig ekspedisjoner til fjerntliggende steder hvor STC er engasjert i å gjøre livet og fremtiden bedre for barn i nød. Oppdraget til STC er også GRs oppdrag, og vi støtter gjerne mange av deres prosjekter.

I tillegg til våre programmer for sosialt ansvar, har GR et enormt MILJØBESKYTTENDE LEDELSESFOKUS. GR er ISO-sertifisert siden 2001 og vi er forpliktet til å redusere miljøpåvirkningen i alle våre operasjoner. Av denne grunn støtter vi ZERO WASTE - en uavhengig, apolitisk, ideell organisasjon av frivillige (1000 medlemmer, inkludert 120 organisasjoner/bedrifter) med oppdrag å øke offentlig bevissthet om plastavfall i miljøet.

Caring Innovation

IBSA (Institut Biochimique SA) is a Swiss multinational pharmaceutical company, founded in 1945 in Lugano. Today, our products are present in over 90 Countries on 5 continents, with 18 subsidiaries in Europe, China and the United States.

Mellowood Medical - IDEAS Fertility EMR:

45 Mellowood Drive, Suite 1B Toronto ON M2L 2E4 Canada

Tel: (Canada) +1 416 561 3238; (UK) +44 (0) 208 8168934 Email: [info@mellowoodmedical.com](mailto:info@mellowoodmedical.com)

- 'State of the ART' fertility clinic management software at leading academic (including Nobel Prize-winning) and private centres - 20 + Years of IVF Sector Experience

- Experienced 'round the clock' support wherever Your clinic(s)
- Cerner/EPIC/IDX and other integrations at major global institutions
- Data conversion from your current database/EMR/ cryostorage
- You Own the Data – Server on premises
- IDEAS Cloud® available

IVFtech is a family-run Danish company based north of Copenhagen, Denmark. We've been around since 1998, so we know our field pretty well. In 2021 we became part of the American Hamilton Thorne group which gives a lot of new opportunities.

The logo for IVFtech, featuring the letters 'IVF' in a bold, dark blue font, followed by 'tech' in a lighter blue, lowercase font.

We always seek innovative new ways of doing things, and we never stop doing our utmost to solve our clients' challenges, problems, and individual needs. We are solution seekers with a very deep level of knowledge.

We love what we do, and as manufacturers of bespoke workstations, incubators, and equipment for IVF laboratories, we play an indirect but important role in helping people around the world to become families.

This is the ultimate reward for us, and our motivation to keep on creating innovative equipment that will improve the everyday work life of our clients and enhance the chances of success in fertility treatment.

The Merck logo, consisting of the word 'MERCK' in a bold, purple, sans-serif font.

Merck er verdens eldste kjemiske og farmasøytiske virksomhet. I dag er vi et ledende selskap innen vitenskap og teknologi, og opererer innenfor Healthcare, Life Science og Electronics.

Nysgjerrighet har vært vår drivkraft helt siden starten i 1668. En verden i stadig større endring utfordrer oss til videre forskning, samarbeid og nyskaping - på leting etter morgendagens teknologi.

Merck har gjennom 60 år utviklet produkter til pasienter i fertilitetsbehandling, og dekker alle stadier i behandlingen av ufrivillig barnløshet. Vårt mål er å bidra med et variert utvalg av innovative behandlingsmuligheter med enkle administrasjonsmetoder, samt avansert fertilitetsteknologi, til nytte for både helsepersonell og pasienter.

The NovivitaE logo, featuring the word 'NOVIVITAE' in a blue, sans-serif font, followed by a blue dot and a stylized blue drop shape.

# Omda

Omda is the leading provider of specialised software for healthcare in the Nordics with a growing presence in Europe, North America and the Pacific region. Our highly specialised healthcare solutions empower medical professionals and emergency responders, enabling them to know more and work smarter.

# VITROLIFE GROUP™

Vitrolife, a leading IVF provider since 1994, acquired Igenomix in 2021, a prominent reproductive genetic testing service founded in 2011. Together, we form Vitrolife Group, a global leader in reproductive health. Combining Igenomix's advanced testing with Vitrolife's IVF devices, we can better support clinics and patients across the fertility journey. Our vision is to fulfil the dream of having a healthy baby.
