Tealights

The most essential candles for catering venues are tealights. Without them, you miss a touch of warmth and extra sparkle. But light is money. Therefore Spaas offers tealights with different burning times, so that you can choose the best solution for your venue, without losing time and money. Our clearlights are tealights in transparent cups. As they give twice as much light, they are perfect for use in tealight holders.

Teracotta Dishes

Our terracotta dishes are simple but perfect for outdoor use. They are very popular for use in summer as they give an extra touch of warmth to your outdoor event. Another time to use them is when days become shorter: when night falls, they indicate that your venue or café is open for business. Thanks to their ideal burning time, you can set them up early and leave them to burn all night long.
