# Scented Candles in Glass

Glass gives an extra dimension to a candle. That's why they have become so popular. The coloured glasses are perfect as accessories in your interior. The candles in a jar are reclosable and better preserve the fragrance. And of course, the glass adds an extra safety feature when you burn them.

# Scented Fragrance Sticks

Spaas fragrance sticks are a handy and long-lasting alternative to using scented candles, particularly at times when you're not at home. As they don't need a flame to spread their delightful fragrance, they are the ideal solution for freshening up rooms where an open flame is not an option, or when small children are wandering around the house.
