

# SAFETY DATA SHEET NESTE PRO C3 5W-40

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1. Product identifier		
Product name	NESTE PRO C3 5W-40	
Product number	ID 19031	
Internal identification	1173	
Synonyms; trade names	Previous product name: NESTE CITY PRO 5W-40, product number 0135, ID 14184.	
1.2. Relevant identified uses o	f the substance or mixture and uses advised against	
Identified uses	Engine oil.	
1.3. Details of the supplier of t	he safety data sheet	
Supplier	Neste Markkinointi Oy Keilaranta 21, Espoo, P.O.B. 95, FIN-00095 NESTE, FINLAND Tel. +358 10 45811 lubetec@neste.com	
1.4. Emergency telephone nur	nber	
National emergency telephone number	+358-9-471 977, +358-9-4711, Poison Information Centre	
SECTION 2: Hazards identification	ation	
2.1. Classification of the subst	ance or mixture	
Classification (EC 1272/2008)		
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	Not Classified	
2.2. Label elements		
Hazard statements	EUH208 Contains C14-16-18 Alkyl phenol. May produce an allergic reaction.	
2.3. Other hazards		
Other hazards	Risk of soil and ground water contamination.	
SECTION 3: Composition/information on ingredients		

3.2. Mixtures

Lubricating oils (petroleum), ( based	C20-50, hydrotreated neutral oil-	15 - < 25 %
CAS number: 72623-87-1	EC number: 276-738-4	REACH registration number: 01- 2119474889-13-XXXX
<b>Classification</b> Asp. Tox. 1 - H304		
C14-16-18 Alkyl phenol		1 - < 2,5 %
CAS number: —	EC number: 931-468-2	REACH registration number: 01- 2119498288-19-XXXX
<b>Classification</b> Skin Sens. 1B - H317 STOT RE 2 - H373		
The Full Text for all R-Phrases	and Hazard Statements are Displayed in Se	ection 16.
Other information	Lubricating oils (petroleum), C20-50, hydrof DMSO < 3% (IP 346).	treated neutral oil-based (CAS 72623-87-1):,
SECTION 4: First aid measure	95	
4.1. Description of first aid me	asures	
nhalation	Remove person to fresh air and keep comfortable for breathing. Get medical attention if symptoms are severe or persist.	
Ingestion	-	s under the direction of medical personnel. Never person. Get medical attention if symptoms are
Skin contact	Remove contaminated clothing immediately	/ and wash skin with soap and water.
Eye contact	Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation persists after washing.	
4.2. Most important symptoms	and effects, both acute and delayed	
General information	The product contains a small amount of ser reaction.	nsitising substance. May cause an allergic skin
4.3. Indication of any immedia	te medical attention and special treatment ne	eded
Notes for the doctor	Treat symptomatically.	
SECTION 5: Firefighting meas	sures	
5.1. Extinguishing media		
Suitable extinguishing media	Water spray, foam, dry powder or carbon dioxide.	
Jnsuitable extinguishing nedia	Do not use water jet as an extinguisher, as	this will spread the fire.
5.2. Special hazards arising fr	om the substance or mixture	
Specific hazards	None known.	
Hazardous combustion	Carbon monoxide (CO). Carbon dioxide (CO	O2). Hydrocarbons.

### 5.3. Advice for firefighters

trefighting be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.   Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective dothing.   SECTION 6: Accidental release measures 6.1. Personal precautions Wear suitable protective cluthing as protection against splashing or contamination.   For emergency responders Keep unnecessary and unprotected personnel away from the spillage.   6.2. Environmental precautions Stop leak if safe to do so. Avoid the spillage or runoff entering drains, sewers or watercourses Contain spillage with sand, and nor other suitable non-combustible material. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).   6.3. Methods and material for contain spillage with sand, and nor other intert absorbent. Place waste in labelled, sealed containers. Dispose of waste via a licensed waste disposal contractor.   6.4. Reference to other sections For personal protection, see Section 8.   SECTION 7: Handling and storget Avoid inhalation of vapours and spray/mists. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when usig this product. All handling should only take place in well-ventilated place. Keep containers disposed protection, see Section 8.   7.1. Conditors for safe storget, including any incompatibilities Storge precautions   Storge precautions Not known.   Storge precautions Not known. <td< th=""><th>Appropriate engineering controls</th><th>All handling should only take place in well-ventilated areas. Provide eyewash station and safety shower.</th></td<>	Appropriate engineering controls	All handling should only take place in well-ventilated areas. Provide eyewash station and safety shower.
frefghting be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.   Special protective equipment for frefighters Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.   SECTION 6: Accidental release for frefighters Wear suitable protective equipment and emergency procedures   Personal precautions Wear suitable protective clothing as protective and uprotected personnel away from the spillage.   6.2. Environmental precautions Stop leak if safe to do so. Avoid the spillage or runoff entering drains, sewers or watercourses Contain spillage with sand, earth or other suitable non-combustible material. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).   6.3. Methods and material for containment and cleaning up Methods for cleaning up Absorb spillage with sand or other inert absorbent. Place waste in labelled, sealed containers. Dispose of waste via a licensed waste disposal contractor.   6.4. Reference to other sections For personal protection, see Section 8.   SECTION 7: Handling and storage Z1. Precoutions for safe hendling   7.1. Precoutions for safe hendling Avoid inhalation of vapours and spray/mists. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. All handling should only take place in well- ventilated areas. Take precautionary measures against static discharges. For personal protection, see Section 8.   7.2. Conditions for safe storage. Not known.   Secc		
firefighting be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.   Special protective equipment for firefighters Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.   SECTION 6: Accidental release measures Image: Contained breathing apparatus (SCBA) and appropriate protective clothing.   Section 8: Accidental release measures Image: Contained breathing approximation of the spillage.   61. Personal precautions, protective equipment and emergency procedures Personal precautions of the spillage or runoff entering drains, severs or watercourses Contain spillage with sand, earth or other suitable non-combustible material. Inform the relevant authorities if environmental pollution occurs (severs, waterways, soil or air).   6.3. Methods and material for containment and cleaning up Methods for cleaning up Dispose of waste via a licensed waste disposal contractor.   8.4. Reference to other sections For personal protection, see Section 8.   Section 7: Handling and storage To resonal protection of vapours and spray/mists. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. All handling should only take place in well- ventilated areas. Take precautionary measures against static discharges. For personal protection, see Section 8.   7.1. Precautions for safe storage, including any incompatibilities   8.1. Control for and use(s) Not known.   9.2. Conditions for safe storage, including any incompatibilities		Consumer - Inhalation; Long term local effects: 1,2 mg/m <sup>3</sup> , (24h), Aerosol Available hazard data do not enable the derivation of a DNEL for dermal irritant effects. Available hazard data do not support the need for a DNEL to be established for
frefighting be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.   Special protective equipment Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.   SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures   Personal precautions Wear suitable protective clothing as protection against splashing or contamination.   For emergency responders Keep unnecessary and unprotected personnel away from the spillage.   6.2. Environmental precautions Keep unnecessary and unprotected personnel away from the spillage.   6.3. Methods and material for containment and cleaning up Methods for cleaning up   Absorb spillage with sand, earth or other suitable non-combustible material. Inform the relevant authorities if environmental pollution occurs (sewers, waterways, soil or air).   6.4. Reference to other sections For personal protection, see Section 8.   SECTION 7: Handling and storage T.1. Precautions for safe handling   Usage precautions Avoid inhalation of vapours and spray/mists. Do not get in eyes, on skin, or on clothing. Do not eat in discharges. For personal protection, see Section 8.   SECTION 7: Handling and storage Store in tightly-closed, original container in a dry, cool and well-ventilated place. Keep containers upright. Keep away from food, drink and animal feeding stuffs.   7.3. Specific end use(s)		
frefighting be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.   Special protective equipment for finefighters Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing.   SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures   Personal precautions Wear suitable protective clothing as protection against splashing or contamination.   For emergency responders Keep unnecessary and unprotected personnel away from the spillage.   6.2. Environmental precautions Stop leak if safe to do so. Avoid the spillage or runoff entering drains, sewers or watercourses Contain spillage with sand, earth or other suitable non-combustible material. 5.5. Advice for intelignities	Protective actions during	Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Contain and collect extinguishing water. Avoid discharge into drains.

Eye/face protection	Tight-fitting safety glasses.
Hand protection	Wear protective gloves. It is recommended that gloves are made of the following material: Nitrile rubber. Butyl rubber.
Other skin and body protection	Wear suitable protective clothing as protection against splashing or contamination.
Respiratory protection	No specific recommendations.
Environmental exposure controls	Store in a demarcated bunded area to prevent release to drains and/or watercourses.

## **SECTION 9: Physical and Chemical Properties**

9.1. Information on basic phys	ical and chemical properties
Appearance	Liquid.
Colour	Tan.
Odour	Petroleum.
Odour threshold	-
рН	-
Melting point	< -42°C Pour point
Initial boiling point and range	-
Flash point	222°C Cleveland open cup.
Evaporation rate	-
Evaporation factor	-
Flammability (solid, gas)	-
Upper/lower flammability or explosive limits	-
Other flammability	-
Vapour pressure	-
Vapour density	-
Relative density	0,854 @ 15°C
Bulk density	-
Solubility(ies)	Insoluble in water.
Partition coefficient	-
Auto-ignition temperature	-
Decomposition Temperature	-
Viscosity	Kinematic viscosity 87 mm2/s @ 40°C Dynamic viscosity ~6.400 mPa.s (-30 °C)
Explosive properties	-
Oxidising properties	-
9.2. Other information	
Other information	Not known.

SECTION 10: Stability and reactivity		
10.1. Reactivity		
Reactivity	There are no known reactivity hazards associated with this product.	
10.2. Chemical stability		
Stability	Stable at normal ambient temperatures and when used as recommended.	
10.3. Possibility of hazardous	reactions	
Possibility of hazardous reactions	No potentially hazardous reactions known.	
10.4. Conditions to avoid		
Conditions to avoid	Avoid exposure to high temperatures or direct sunlight.	
10.5. Incompatible materials		
Materials to avoid	Strong alkalis. Oxidising agents.	
10.6. Hazardous decomposition	on products	
Hazardous decomposition products	Does not decompose when used and stored as recommended.	
SECTION 11: Toxicological int	formation	
11.1. Information on toxicologi	ical effects	
Toxicological effects	Based on available data the classification criteria are not met.	
Skin corrosion/irritation		
Skin corrosion/irritation	Based on available data the classification criteria are not met.	
Serious eye damage/irritation	Decedes such the data the classification with the two net met	
Serious eye damage/irritation	Based on available data the classification criteria are not met.	
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.	
Skin sensitisation Skin sensitisation	The product contains a small amount of sensitising substance. Based on available data the classification criteria are not met. Supplier's information. Bridging principle (Dilution).	
Germ cell mutagenicity Genotoxicity - in vivo	Based on available data the classification criteria are not met.	
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.	
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.	
Reproductive toxicity - development	Based on available data the classification criteria are not met.	
Specific target organ toxicity -	single exposure	
STOT - single exposure	Based on available data the classification criteria are not met.	
Specific target organ toxicity -		
STOT - repeated exposure	Based on available data the classification criteria are not met.	

### Aspiration hazard

Aspiration hazard

Based on available data the classification criteria are not met.

### Toxicological information on ingredients.

L	ubricating oils (petroleum), C20-50, hydrotreated neutral oil-based
Acute toxicity - oral	
Notes (oral LD₅₀)	LD₅₀ > 5000 mg/kg, Oral, Rat (OECD 401)
Acute toxicity - dermal	
Notes (dermal LD₅₀)	LD₅₀ > 2000 mg/kg, Dermal, Rabbit (OECD 402)
Acute toxicity - inhalation	<u>on</u>
Notes (inhalation LC50)	LC₅₀ > 5,53 mg/l, Inhalation, Rat (OECD 403)
	C14-16-18 Alkyl phenol
Acute toxicity - oral	
Notes (oral LD <sub>50</sub> )	LD₅₀ > 2000 mg/kg, Oral, Rat
Acute toxicity - dermal	
Notes (dermal LD <sub>50</sub> )	LD₅₀ > 2000 mg/kg, Dermal, Rat

SECTION 12: Ecological Information

### 12.1. Toxicity

Toxicity

The product is not expected to be hazardous to the environment. Based on available data the classification criteria are not met.

#### Ecological information on ingredients.

#### Lubricating oils (petroleum), C20-50, hydrotreated neutral oil-based
