

Neste Pro Coolant Bio

Longlife biodegradable coolant concentrate

PERFORMANCE CLAIMS

ASTM D3306 Type II

ASTM D5216

ASTM D6210 Type II-FF

DESCRIPTION

Neste Pro Coolant Bio is harmless and environmentally safe long life readily biodegradable coolant concentrate. It protects sensitive components of a modern engine. The product does not contain silicates and nitrites.

SPECIAL FEATURES AND BENEFITS

-Organic acid technology (OAT)

-Silicate free

-Excellent freezing protection

-Ultimate corrosion protection

TYPICAL CHARACTERISTICS

Density kg/m ³ 20°C	1042
Equilibrium boiling point, 50 vol-%/ASTM D1120	163 °C
Reserve alkalinity, 50 vol-%/ASTM D1121	5,7 ml
Refractive Index, 50 vol-%/ASTM D1218	1,431
pH, vol-50 %/ASTM D1287	8,8
Freezing protection, 50 vol-%	-37 °C
Freezing protection, 33 vol-%	-16 °C
Colour	Green

APPLICATIONS

Neste Pro Coolant Bio is suitable for use with internal combustion engines if there's a fear that product getting into the environment.

Check the suitability of the product in the manual. It is not recommended to mix the product with other coolants.
