MOTORCYCLE OIL 2T

Product Description:

MOTORCYCLE OIL 2T is a high quality lubricant suitable for use in air cooled 2-stroke gasoline engines working under a wide variety of conditions and is formulated from highly refined mineral base stocks and fortified with carefully selected additives to provide engine protection and cleanliness in 2-stroke engines.

MOTORCYCLE OIL 2T offers excellent lubricity that protects against piston scuffing and premature wear of engine components. The low ash formulation effectively prevents preignition and spark plug fouling. The excellent miscibility with gasoline ensures stable homogeneous mixtures at low ambient temperatures.

MOTORCYCLE OIL 2T is recommended for 2-stroke motorcycles and scooters requiring API TC and/or JASO FB quality oil and is suitable for both oil-injection and premix lubrication systems. Always follow manufacturer's recommendation regarding oil to fuel ratio.
