Call for papers

SPECIAL FEATURE CALL FOR PAPERS SYSTEMATIC REVIEWS IN EDUCATION: PRODUCING AND ACQUIRING KNOWLEDGE IN TIMES OF CRISIS AND SOCIAL CHANGE. For publication from winter 2023 Edited by Janice Tripney and Sabine Wollscheid. Expressions of interest accepted until 14 April 2023. Deadline for draft papers 29 September 2023.

This special feature plans to bring together a collection of articles on systematic review methods and their application in education and related fields. The intent is to provide an overview of the current state of research on these topics and to characterize the major findings or implications of this research.

We welcome 1) systematic reviews that stand to make important contributions to the most pressing challenges facing decision-makers in education, including but not limited to reviews responding to the social crisis created by the Covid-19 pandemic; 2) articles highlighting technological or data-related innovations in methodology that are relevant to future systematic reviews in education and related subject areas.

Conferences

International conference “An evidence-based approach to teaching within health”

The section Evidence-based Practice at [Western Norway University of Applied Sciences](#) (Bergen) is organizing an international conference "[An evidence-based approach to teaching within health](#)" on May 31, 2023. Keynote speakers: [Malgorzata Bala](#) from Jagiellonian University, Krakow, Poland and [Andy Oxman](#) from Norwegian Institute of Public Health, Oslo, Norway. The conference is open for teachers, students, researchers, and others with an interest in evidence-based approaches to teaching and evidence-based practice. Deadline for abstract submission is March 27, mail to Ishanka M.W.R Mudiyansele: Ishanka.M.W.R.Mudiyansele@hvl.no. Questions? Please contact Hans Lund, hans.lund@hvl.no

Cochrane Colloquium in London from 4th to 6th September 2023

Are you attending the Cochrane Colloquium, join the meeting held by the Scandinavian GRADE Network on the 4th of September at 13.00-13.45.

Future training events

GRADE course and workshop on the use of qualitative evidence in guideline development, April 2023

Do you work with guideline development and would you like to learn more about how to use qualitative evidence in guideline development?

The Danish Health Authority host a GRADE Course and workshop 19. April 2023. You will get an introduction to qualitative evidence synthesis and how it can be used to represent patient views and preferences in guideline processes using the 'Evidence to Decision' framework. You will also get an introduction in how to assess the confidence in review findings from a qualitative evidence synthesis using GRADE CERQual. Presenters from the Nordic countries will present their experiences on the use of qualitative evidence in development of clinical recommendations.

The GRADE course the 19. April is planned in conjunction with the Annual Meeting and workshop in the Nordic Guideline Network (GIN Nordic) the 20. April 2023. The themes of the GIN Nordic workshop are user involvement and international collaborations in guideline development with a focus on pharmacological recommendations.

Date: 19 April 2023 GRADE Course and workshop, 20 April GIN Nordic Annual Meeting and workshop

Location: Danish Health Authority, Copenhagen
