Why health and social care services in Norfolk and Waveney need to change

Our Vision

That all people with a learning disability have the ambition, choice and opportunity to be equal members of the Norfolk Community.

Our Approach

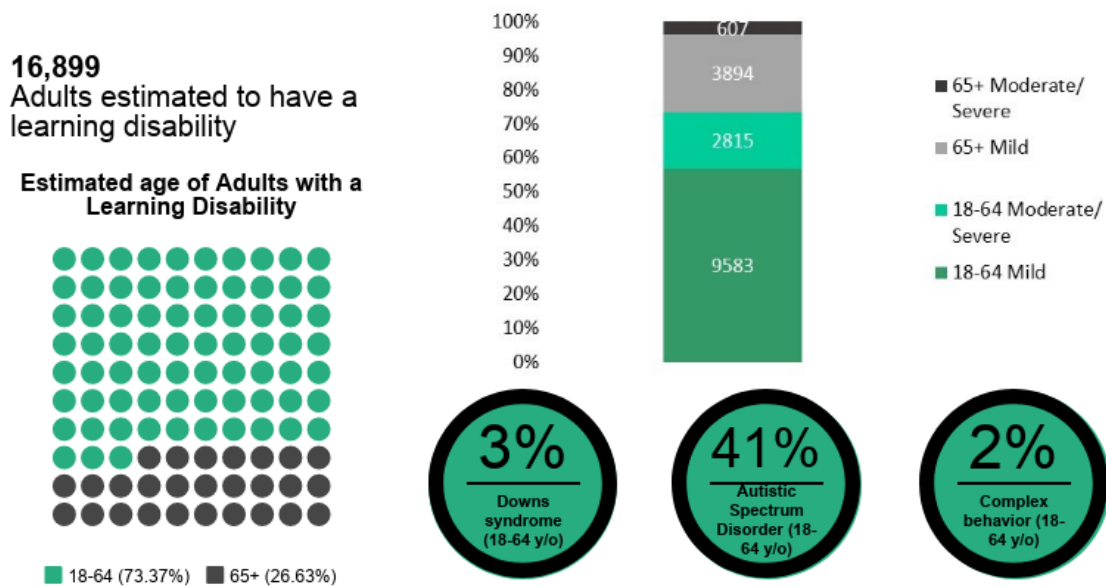

My Life, My Ambition, My Future has been co-produced with residents of Norfolk with a learning disability, families, advocates, health and social care professionals and the wider community. *My Life, My Ambition, My Future* introduces a vision and identifies the priorities that we all need to work on to achieve this vision, in partnership.

My Life, My Ambition, My Future sets out a clear intention for everyone involved in the lives of people with a learning disability, to work together in partnership and through co-production with people that have a learning disability, their families and the wider community in Norfolk.

As in many parts of the country, budgets are not keeping pace with demand and so change is needed.

- Community resources
- Safe communities
- Effective services
- Efficient services
- Prepare for Transitions

Co-Production and Key Themes

My Life, My Ambition, My Future co-production took place between July and December 2017. People with experience of a learning disability, their families and carers, were central to the co-production. Professionals and the wider community were also involved in the co-production.

In total, 823 people contributed to the My Life, My Ambition, My Future co-production listening and engagement activity. They did this in lots of different ways including surveys, group activities and a Co-Production Group.

My Life, My Ambition, My Future **Priority Outcomes**

The priority themes identified through co-production have been translated into Priority Outcomes. These are examples of the outcomes and opportunities that could be achieved as a result working in partnership over the 5 years of the strategy.

Delivering My Life, My Ambition, My Future

Through the implementation of a Joint Commissioning Plan projects will be initiated to undertake reviews of services and make proposals on how we can deliver services that are aligned to outcomes of *My Life, My Ambition, My Future*. The Learning Disability Partnership Board will have a **BIG** role to play in the delivery of the Key Priorities identified in *My Life, My Ambition, My Future* and the delivery of the agreed partnership principles.

In addition, the Learning Disability Partnership Board will provide co-production, participation and opinion on other projects where it may impact on the lives of people with a learning disability or their families as part of the equality impact assessment.

To do this the existing Learning Disability Partnership Board agreed the introduction of working groups to prioritise the actions and have oversight of the activity so that work doesn't happen in isolation.

The working group will link to the Local area partnership groups to ensure local delivery of priorities and receive information about the local issues.
