GROUP ZERO NEWSLETTER # 10

1 July 2001

THE PROGRAMME

=====
FOR THE PARTICIPANTS SUMMER 2001
=====

DEAR GROUP ZERO

Here is our planned activities. This programme will also appear in the session newspaper. It will shortly be posted to those, who sign up for participating in the Summer Session. Those of you who did not sign up, can still do so. But do it now. And I advise every one of you to sign up and come to Sweden and participate. Check <http://www.nsuweb.net> for details.

THE WHOLE WEEK

Group Zero might go shopping in the different Study Circles and contribute to discussions in a 0-perspective. Also Group Zero has the intention of contributing to all kind of activities going on in the Summer Session in 0-manners.

NSU TV will broadcast daily news. They can be watched in the bar every evening after dinner except for Tuesday, when we will broadcast after the panel discussion.

Every day will have a separate theme. Look for the movable tent for an introduction to the theme of the day. There will be decorations according to the theme of the day around the Summer Session area. For example on Wednesday there will be writing session during the day, so that you can make texts for participating in the poetry slam in the evening.

The morning rehearsals and after lunch gatherings will take place in the room of Group Zero, while the news and midnight assembly will be in the bar. Everybody can participate in activities of Group Zero. Just join. All activities are subject to change. We are dedicated to action oriented working methods. There is additional information available about Group Zero at the web page: <http://nsuweb.net>
