

SO, HE CARES

...sociable and confident kids.

SO, HE CARES

Nigeria

Special School
For Children With Special
Needs

WHO WE ARE

SO, HE CARES Nigeria is a co-educational special school, within the trusteeship of OBIYE ACADEMY and SO,HE CARES UK.

OUR MISSION is to offer a rich and caring environment for all Children irrespective of background:

To engage all our Children with learning and building blocks for healthy development.

At So He Cares, we Inspire, Engage and Excite our kids in a friendly and warm environment.

We build on Academic, Social and varying skills for Excellence.

SPEECH AND LANGUAGE THERAPY

Speaking and listening affect all areas of learning, and children with under-developed skills are at a significant disadvantage. At So He Cares we support such learners with classroom strategies, 1:1 intervention and specified resources for effective support.

LIFE AND FUNCTIONAL SKILLS ▼

The final goal of special education should be for our students to gain as much independence and autonomy as possible, regardless of their disability. "Self Determination" is the highest goal of special education for our students.

TRANSITIONAL SKILLS ▼

Transition is a lifelong process. We are aware of this and we prepare our learners from the Early Years through to Adult Life to readily adapt to their next stage at every point of their growth.

OUR VALUES

Through our actions and influence we will strive to develop learners that are:

- * Striving for the Best
- * Honest and hardworking.
- * Calm, caring, compassionate Individuals

WE AIM :

- * To ensure that all Children have access to affordable, quality After school activities
- * To build all our learners with Positive character traits.
- * To give great fun learning opportunities for all our learners.
- * To expose our Children to learning activities that will further aid them in learning.
- * To build and cultivate the special gifts in each unique Child.

WHAT WE DO

At SO, HE CARES Nigeria, we have kept ourselves abreast of the latest findings in this field and have tailored activities to maximize them.

AQUATIC THERAPY

The use of water in enhancing the child's quality of life and improving productivity. Our therapists use specifically designed water activities to help in restoration, improvement, and enhancing quality functions of the learner with Autism.

Currently, **NO MEDICATION / INTERVENTION** has shown a consistent positive effect on the children with ASD. Experts say that the earlier the child with autism starts treatment/intervention therapy, the better the outcome would be. Moreover, each child with ASD should be treated according to the level of spectrum he/she is at and the symptoms they exhibit.

So He Cares is not merely a special education centre nor is it a normal regular setting.

We see So He Cares as the natural response to the Biblical injunction to raise our children in the nurture and admonition of the Lord (Eph. 6:4).

We firmly maintain that the best healing comes from Jesus and we depend on his direction in all that we do. Accordingly, prayer is key in our setting.

We welcome everyone to join with us in our efforts to equip all our learners with both the Spiritual and Moral integrity for excellence through prayer!

SOCIAL CUES

Creating or using a social story helps us to understand how the autistic learner perceives different situations. Social Cues are a major part of our behavioural strategy.

OCCUPATIONAL THERAPY ACTIVITIES

Through these activities, we find the strength of the child and build on it.

MULTI SENSORY PROGRAMS

Multisensory instruction helps kids tap into their learning strengths to make connections and form memories. And it allows them to use a wider range of ways to show what they've learned.
