

Surface protection for events

Eco-friendly & Cost effective surface protection for events & arenas.

Now available in all RAL colours to fit your brand!

Environmentally friendly plastic plates used as surfaces at arenas, fairs, festivals and events.
100% recycled but durable material that can be easily handled by hand.

At a lower cost than traditional options!

100% rot-proof, 100% eco friendly, 100% cost-effective.

A new alternative

There is an option & supplement

- **Durable** - doesn't absorb water, flexible and follows the surface well. Withstands even the heaviest excavators. Resistant up to 81 tons
- **Environmentally friendly** – ISO certified 100% recycled polyethylene that is fully recyclable.
- **Easy to manage** – no requirement for multiple employees or cranes to move. System with handheld tow bar and brackets for easy use.
- **Easy inventory management** – rinse, haul in the car and reuse year after year.
- **Cost effective** - Avoid recurring investments after each project.

- ... At a lower price than wood *, metal and iron sheet options!
- ... At lower prices than the competition!

(*cost of recurring investments included)
