

After months of preparation, Japan is now awaiting the arrival of Pope Francis!

“Protect All Life” is the theme and logo of the visit of Pope Francis to Japan. The theme focuses on respect for not only each person’s dignity but also the environment.

The official theme song sings of uniting with one another to protect the world for the future. The song shows images of holding hands, portraying the theme of uniting with one another. The chorus “Protect All Life” is also sung in three languages, perhaps to show unity among people, despite speaking different languages.

You can listen to the song by visiting our website: <https://www.omi-japankorea.net/>
