

Online event about environment quality management with focus at environment and audits

Are you part of a private or public organisation that would like to learn more about **environmental quality management and **internal environmental audits** within the management work? Are you interested to learn it together with participants from public- and private organisations from different parts of Europe and on Global level?**

You are warmly welcome to take part in a fully online event where you will get a short introduction about environmental quality management, and you will deepen your understanding in effective workshops together with other participants from different organisations and countries on Global level. You will further have an opportunity to get introduced to the **Synergy Audit E-Learning Tool** that you will find FREE of charge on the Internet.

We are thankful for the chance given by the European Commission to open extra for the possibility to meet with individuals in **organisations in Ukraine** and in organisations now moving from Ukraine because of the war, by taking part in the event. If you are part of an organisation from Ukraine and think that the event can be helpful for you and your organisation please let us know. You are most welcome.

During the event you will be able to hear about environmental management and internal environmental audits practise and practice yourself on how to apply one or more of the UN 17 Sustainability Goals into the management of your organisation. Further, you will be able to practice how to effectively use the Waste Framework Directive and particularly its Waste Hierarchy in the work in your organisation.

Also, you will have the chance to test the E-learning tool that involve teaching about environmental audits by online games.

You do not need any previous knowledge within the environmental field to participate the event, only a great interest in finding ways for your organisation on how to decrease most negative climatic and environmental impact of the organisation in a systematic and effective way.

PRACTICAL DETAILS

The Event will take place online

2 June between 13-16.30 CET and all communication will be in **English**.

Co-funded by the
Erasmus+ Programme
of the European Union

Thank you for your time and looking forward to hearing from you and meeting you online!

Eleonora Bru, Head of One Planet, and *Suvi Holm*, CEO of EcoFellows Ltd

About the SYNERGY AUDIT project

A train-the-trainer online course together with guiding information and an E-learning tool have been developed in the SYNERGY AUDIT project in 2019-2022 by co-funding from ERASMUS+ EU funds in the shape of educative tools for support toward a multidisciplinary set of organisations on global level. Support in starting up - and help in getting ready toward environmental certifications- of environmental management and internal environmental audits is the focus by an interdisciplinary course in which also circular economy, contemporary history, energy audits, teaching pedagogics, global warming effects and more take part.

Please let us know if you would like to have more information about the project and about how its tools could be used by your organisation by sending an email to: forplanettellus@gmail.com
