

Plugins

The screenshot shows the Jenkins Plugins page with a search bar at the top containing "ansib". Below the search bar, a table lists the "Ansible plugin" with version 240_vc26740a_625c0. The table includes columns for "Name" (Ansible plugin) and "Enabled" (with a checked toggle switch). Below the table, there is a brief description of the plugin: "Invoke Ansible Ad-Hoc commands and playbooks." and a link to "Report an issue with this plugin".

Name ↓	Enabled
Ansible plugin 240_vc26740a_625c0 Invoke Ansible Ad-Hoc commands and playbooks. Report an issue with this plugin	<input checked="" type="checkbox"/>

On ubuntu system install

apt install python3-pip

Create pipeline and copy this code

```
pipeline {  
    agent any  
  
    stages {  
        stage('Checkout') {  
            steps {  
                // Checkout your Ansible playbook repository  
                git branch: 'main', url: 'https://github.com/amitopenwriteup/tfsource.git'  
            }  
        }  
  
        stage('Install Ansible') {  
            steps {  
                // Install Ansible on the Jenkins agent  
                sh 'pip install ansible'  
            }  
        }  
    }  
}
```

```
stage('Run Ansible Playbook') {  
    steps {  
        // Run the Ansible playbook  
        sh 'ansible-playbook -i inventory playbook.yaml'  
    }  
}  
}  
}
```
