🔍 Credentials
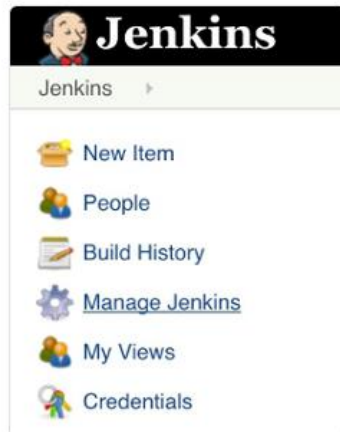

Step 3 After it's installed, click on **Manage Jenkins** again in the left navigation, and then go to **Configure System**. Find the **Global Slack Notifier Settings** section and add the following values:

- **Team Subdomain:** `jenkinsworkspaceorg`
- **Integration Token Credential ID:** Create a secret text credential using `Y5JcWqnC3lihFuEMesCoagfu` as the value

The other fields are optional. You can click on the question mark icons next to them for more information. Press **Save** when you're done.

Note: Please remember to replace the Integration Token in the screenshot below with your own.

Global Slack Notifier Settings		
Slack compatible app URL (optional)		❓
Team Subdomain	jenkins-slack-plugin	❓
Integration Token		❓
	⚠ Exposing your Integration Token is a security risk. Please use the Integration Token Credential ID	
Integration Token Credential ID	some text (bot user slack token) ⬍ ⬅ Add	❓

Step 4 For each Project that you would like receive notifications for, choose **Configure** from the project's menu.
