OPEN SEMINAR

Join us for a seminar focused on the evolving concept of peace, where we will explore how peace is redefined over time and across different contexts. The Baltic Sea Region serves as a pertinent backdrop for this discussion, particularly in light of the shifting security policies and challenges following Russia's full-scale invasion of Ukraine in 2022. This event brings together speakers from Sweden, Estonia, and Ukraine to delve into the nuances of conceptualizing peace, encouraging us all to consider how and when our understanding of peace is challenged or confirmed.
