Selected products and examples from our current range:
for advice and machine details: info@baertschi.com

Soil preparation – Bed milling

FOBRO rotor impeller

- Bed router with leveller shaft
- Uniform surface finish and ideal crimp structure
- Robust, proven, and even stronger
- Perfect beds
- Front and rear attachment

FOBRO Rotary cultivator

- Combines rotary harrow and bed planter
- Front rotary harrow and rear scraper shaft (hedgehog roller)
- Suitable for soil cultivation, especially in wet conditions
- The original from FOBRO – with the most beautiful bed!

FOBRO Multicultivator Rotor

- With single suspension and depth adjustment
- Exact work and uniform bed structure
- Automatic frame folding
- As a folding frame or solid frame (according to customers' requirements)

• The perfect bed is only available with the "FOBRO" and it is the basis for further success!

Cultivator Rotor

Triple rotary cultivator

Fertilizer row spreader

Rotary cultivator with ridging shoe

Dam-former

Perfect bed

(Many options available, ask us for the perfect bed with the following, suitable chopping technique!)

Chopping and fertilization

FOBRO Triple chopping brush

- Gentle and effective in 3 rows
- For special crops, organic corn, soy, etc.
- Very economical and clean
- Fills up with fresh soil between the plants

FOBRO Star hoe

- Blockage-free work
- Care-taking work in dam cultures
- Ideal ridging filler
- Haruwy-Chopping star available from Breatschi

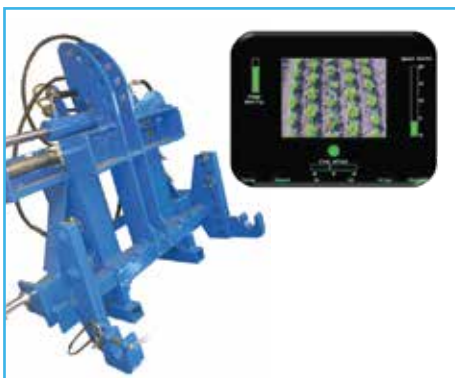

FOBRO Finger hoe

- Chopping within the row
- Drifts the ground by hardox fingers with gentle plastic fingers
- For all common FORBO tree chippers

FOBRO Chopping brush

- Used for more than 30 years
- Proven chopping system for vegetables cultivation
- Keeps fine roots whole and soil hygienically clean

Shift frame + camera

- Hydraulic transfer frame, Cat I / Cat II
- Graford + other camera systems available
- Installable also in FOBRO-Mobil
- For 1000kg machines with 100kg of their own weight.

FOBRO Haruwy

- Haruwy Chopping technique with rugged stars
- Massive attachment with deep loosening and parallelogram
- Adjustable in all directions
- Fits the reinforced FOBRO tube and is a part of the FOBRO modular system

FOBRO Chopping brush

- Gentle, clean and safe
- Safe care system
- Robust, low-wear special brushes
- Destroys and stops weeds quickly

Chopping technique in the modular system

- All individual production according to customers' requirements
- Modular system can be retrofitted at any time
- Make the perfect hoe tool with us, and exchange what does not fit

FOBRO Chopper +section tube

- For all row and dam cultures
- Front, inter- axle, rear attachment
- With camera control
- New reinforced pipe, only available from Breatschi

Harvesting technology for bare-root plants

FOBRO 2000 Bed grubber (-35cm)

- Grubber for bare roots
- Actively powered grubber share
- The right implement for every culture

FOBRO Super Max
Bed grubber (35-40cm)

- Mechanical or hydraulic
- Suitable for tall plants
- Gentle sifting out of the earth
- Low traction required

FOBRO Start Bed grubber (-25cm)

- For baling young pups
- Low traction required
- Protects the root to last

FOBRO Pickup

- Gentle upfeed of plants of all kinds
- Combination with the FOBRO 2000 or FOBRO Super Max
- Pendant version over goose-neck for precise, clean harvesting

Pickup for FOBRO
and other bed grubber

- Pickup can also be mounted on other sturdy bed grubbers.
- With many options
- New with a large hood
- With harvesting belt and / or pallet hoist

FOBRO Oscillator

- Extremely robust side thruster
- Up to 50cm depth
- Does not drive over the plants
- With counterweight compensation

FOBRO = Forst (timber)
Bed
Roden (grubber)
