Ride the Wave

Ride the Wave is the culmination of the Acting Up course, an opportunity for graduates of our Introduction to Acting course to sharpen their new found skills and perform in front of a live audience at The Edge. The themes for these productions are always inspired by the students taking part - six of whom on this occasion happen to be from 6 different European countries.

So welcome to limbo! What else could we possibly have made our show about?

SUPPORT OUR WORK

Participants from The Edge's **Acting Up** course and **The Sing** present the culmination of their 10 week course.

Acting Up takes participants through the process of making theatre, right up to the night of the performance for an invited audience of family and friends.

The Sing is a weekly drop in class. If you want to sing great songs in good company, have fun, learn new songs, enjoy singing old ones, meet new people, improve your heart, lungs and emotional well being, then it's the place for you.
