

Professional Certificate in Pastoral Supervision

The Institute of Pastoral Counselling & Supervision
in association with
Sherwood Psychotherapy Training Institute

**October
2021 -
June 2022**

Six two day workshops delivered over one year, with time to embed learning within professional and ministerial practice

The Church in our current climate faces both crisis and opportunity. Reduced clergy numbers, exacerbated by the pandemic, mean that the tasks of ministry need to be reviewed, prioritised and structured as never before.

The changing nature of local ministry increasingly requires pastoral ministers to oversee teams and develop skills in line management, supervision and reflective practice, in order to enable one another to survive and thrive amidst the pressures of 21st century ministry, increasing in skill and wisdom and remaining accountable to those they serve.

As the Church nationally recognises that ongoing support for ordained ministers and active lay people is more vital than ever, we endeavour to encourage and resource this important ministry of watching over one another in love.

Maecenas quis lacus?

What are the course aims?

The current emphasis upon ministerial development means that the church needs practitioners with supervisory skills to facilitate creative reflection on the work of ministry.

Within a widening variety of settings, chaplains have an important role to play in fostering skills of reflective practice - in relation to spiritual care - within multi-disciplinary teams.

In addition, spiritual direction is increasingly seen as a life-giving ministry to the whole church and spiritual directors need opportunities to reflect on their practice and receive supervision for their work.

Equally, pioneer ministers, pastoral team leaders and counsellors and psychotherapists working with people of faith find themselves grappling with the on-going integration of spirituality, vocation and professional identity.

The Professional Certificate in Pastoral Supervision has been developed to address this cluster of training needs. It is a substantial course, which draws on both theological and psychological understandings of the mission and ministry of lay and ordained Christians in a variety of settings.

How will I learn?

The course operates as an ecumenical and multidisciplinary learning community, where your working experience is valued as the raw material for learning. This is built upon through a variety of activities, including facilitator and student-led seminars, small group experiential tasks and reflective practice demonstrations.

Your development as a supervisor will be monitored through assignment writing, a seminar presentation, peer supervision activities and audio recorded sessions with ongoing feedback from your peers and summative assessment by group facilitators.

Assignments are designed to contribute to your practice and will combine to create a portfolio of evidence of professional competence in pastoral supervision.
