Expressive design with a colourful personality.

# ABOUT PELLINGTON DESIGN

We're all affected by our milieu, so take care of your surroundings. With clever & colorful design we are aimed at contributing to a serious joyful décor. Weather you look for a contrast to spice things up or as part of a whole concept.

Pellington's goal is to create serious but playful design that contributes to a stimulating and inspiring surrounding. The unexpected, unusual and personal is an important part in a meeting, whether it is with a person or an object. Pellington's vision is to create an unanticipated and enjoyable meeting that puts a smile on your face and leads to a serious and lifelong relationship.

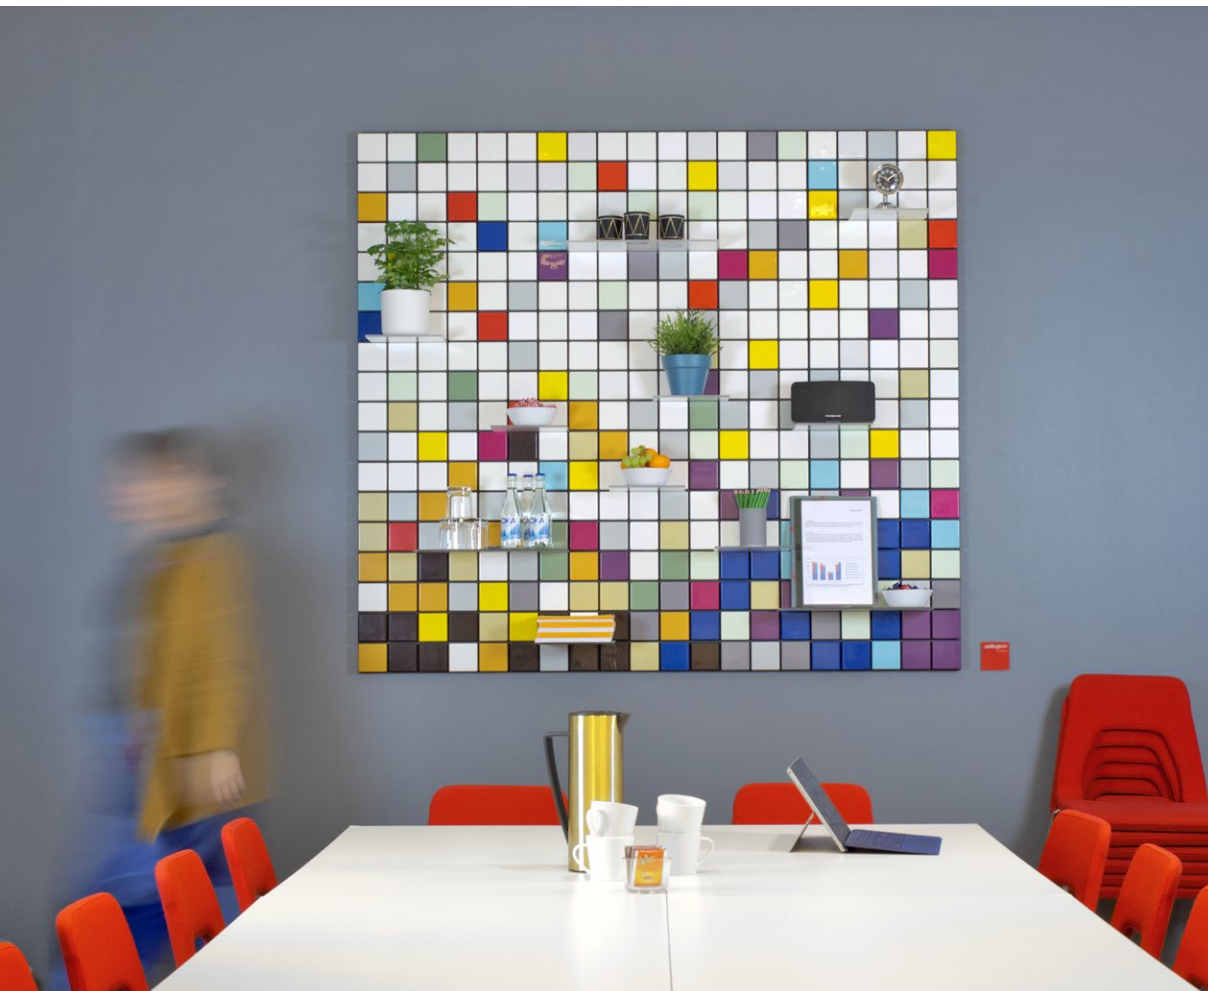

Welcome and enjoy!  
Alice & Per

*Let your shelf put a smile on your face*

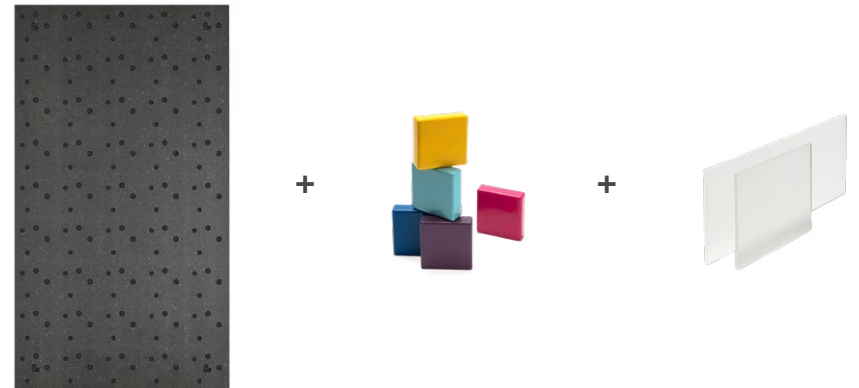

# CONFETTI SHELF SYSTEM

The expressive modular shelf system with a colorful personality.

*Not just another brick on the wall*

Confetti consists of three parts:  
**back-plate, bricks and shelves** that easily can be  
composed in truly unique combinations.

The colours of the bricks ranging from soft pale blends  
to striking rich colours that opens for a serious personal  
and artful shelf experience.

*A room changer with shelf-identity*

# HOW DOES CONFETTI WORKS

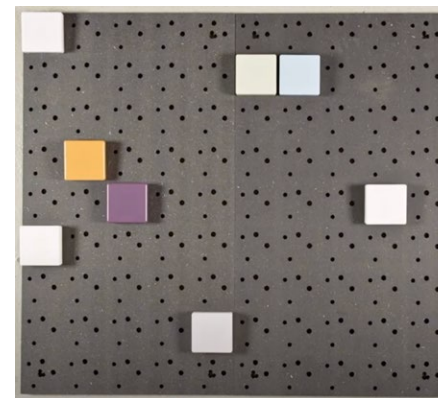

A Confetti modular shelf system kit is composed by the following parts:

COMPONENT	MATERIAL	SIZE
1 Back-plate	Dyed fiber board	77x43x1,2 cm
45 bricks	ABS plastic	8x8x2,2 cm
3 small shelves	Acrylic plastic	21x17,5x0,6 cm
1 large shelf	Acrylic plastic	43x17,5x0,6 cm

The coloured bricks are arranged and then pushed in to the back-plate. The panel is then hanged on the wall and the shelves are finally pushed in between the bricks.

*Highly customisable!*

Several panels can be combined to create a larger wall piece and it's possible to change the position on both bricks and shelves.

# CONFETTI COLLECTION

Our personal take on shelf-creation.

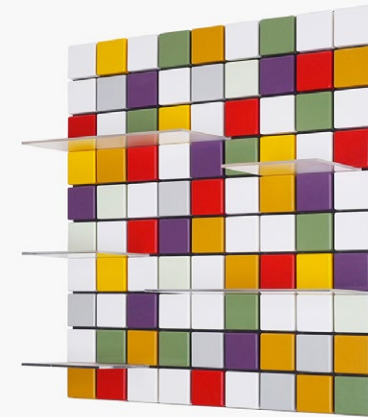

Every now and then we let the bricks come together to play. Quite often new, and intriguing matches and patterns emerge. We love it and share it: this is our most personal take on Confetti shelf design.
