Thomas Becker – enters PhotoC Holding and Photocat A/S

Thomas Becker has entered as co-owner of PhotoC Holding, which is the largest shareholder in Photocat A/S. At the same time he has been appointed Partner and COO with executive responsibilities for cornerstone customers as well as the essential area of Governmental Affairs and relations. Thomas Becker maintains his seat at the Board of Photocat A/S

Thomas comes from a position as CEO in the European Wind Energy Association in Brussels. His career has for many years evolved around environmental issues both as a civil servant and in private business.

Michael Humle, the CEO explains, "It is truly a gift for Photocat to have such a capacity as Thomas Becker working for promoting the NOx free solutions offered by Photocat. Thomas adds an important qualification to the Management of Photocat namely the crucial insight and capability of persuading decision makers in the public service to take into account the photocatalytic technology as an important and economically beneficial instrument to combat air pollution".

Photocat manufactures patented coating materials for both outdoor and indoor applications with the effect to degrade NOx and VOC's when exposed to light. Both NOx and VOC's are severely damaging to human health. Photocat's patented technology is a very efficient and an economically viable alternative to many of the traditional technologies targeting NOx (e.g. bus catalysts, flue gas cleaning etc.). Photocat's shares are listed on Nasdaq Stockholm, First North with the ticker symbol PCAT. The company's Certified Advisor is Redeye AB.
