PingOut is a Copenhagen-based collaboration that designs, manufactures and supplies activity and furniture for urban spaces across the world. We offer the PingOut ping pong table and the HangOut furniture series. We also offer custom designs, artist collaborations, events and video/photo documentation. Collaboration has always been the starting point for our projects. To ensure top quality for products and deliveries, we work closely with Elverdal on production and distribution of the PingOut & HangOut series.

PingOut is founded by Anders Find & Troels Øder Hansen in Copenhagen 2009

Anders is a photojournalist and a passionate table tennis player. Troels holds a MA in furniture & spatial design and has roots in the street environment.

How it all began

Back in 2009 Anders Find went to Berlin, he heard about a group of old punks that lived under a ping pong table in a park. "What I saw in Berlin was: that table tennis has a unifying effect and everyone can join, "

"I decided to document this with my camera," he says. "The interesting thing was that these punks had a fantastic impact on the place. Homelessness tends to have a negative effect on the urban space, but here they could act as instructors. Berlin is patched up with ping pong tables, and I also thought that there should be more of this in Copenhagen."

There was not far from thought to action. The next step was to find someone who could lead the project. It became furniture designer Troels Øder Hansen, who is passionate about table tennis and has his creative background in the street environment.

"I have always been fascinated by and attracted to making projects in the street, and here was an opportunity to combine furniture design with street activities," explains Troels. "It only took three months from we first meet to the first ever PingOut table was produced and delivered. It was simply meant to be."

PingOut table - The original ping pong table for outdoor use.

The perfect companion for almost all recreational areas in need of activation. We like to think of it as a social engine made to create lots of play and good times.

The PingOut table is designed and produced in Denmark of hot galvanized or wet laquered German steel. The table size is W150 cm and L274 cm H760 / 910 cm. The consistent design and choice of a single material makes the table indestructible and 100% recyclable.

To ensure maximum quality in the products, distribution and warranty, PingOut & HangOut are delivered in cooperation with our partner Elverdal. PingOut comes in a basic galvanized non colorway or painted in the desired RAL color. Plug and play - Ready to use the same minute it is delivered. With a solid weight of 630 kilos it's a steady table in no need of any foundation.

PingOut table - New edition

In order to challenge the usual way of playing table tennis, we have changed the premise.

With the round version of our iconic PingOut table new constellations can be explored. Obviously this design is an invitation for even more people to gather and play around the table at the same time.

To ensure maximum quality in the products, distribution and warranty, PingOut & HangOut are delivered in cooperation with our partner Elverdal.

HangOut series

HangOut is a new serie of playful platforms made for seating, eating, growing stuff or simply hanging out. Designed to meet the need of weary travellers, fatigued ping pong players or everybody else looking for a place to sit and relax for minut or a day.
HangOut is introduced with 4 seating modules and a planter. Additional modules and features will be included on an ongoing basis.

To ensure maximum quality in the products, distribution and warranty, PingOut & HangOut are delivered in cooperation with our partner Elverdal.
Hangout is designed and produced in Denmark of hot galvanized or wet laquered german steel. The seats are made of thermowood.

Artists edition

Great art needs a great canvas. Are you looking for a custom-painted PingOut table painted by your favorite artist we are happy to help with the process. We curate and drive the entire process with you and the chosen artist.

The creative process with the chosen artist can be part of an involving workshop or event as we have done with SMK, National Gallery of Denmark, Roskilde festival or various institutions and urban partners.

The picture shows a table painted by the artist HuskMitNavn.

Have a look at pingout.net for more art.
