About Us

At Prestige Care Solutions, we acknowledge the importance of having a compassionate team with the necessary skills to provide the best care and support for you or your organisation. We take pride in delivering quality services that enable the user to reach their objectives. Our primary goal is to improve the quality of life of our service users or business growth by recognising your individual or company's needs, preferences, and specific requirements.

Our commitment to providing an unfaltering service means that you can be assured of the highest level of support. We uphold the core values of respect and dignity, which remain at the forefront of our service delivery.

Our Values

1. Openness: We are devoted to ethical business strategies and have established a culture of openness, honesty, and integrity with our staff, service users, professionals, and local and central government.
2. Professionalism: We train our carers using our in-house training manuals designed using evidence-based care and industry best practices to ensure our staff can offer the best quality of care within the guidelines of the health and social care legislation and regulations.
3. Reliability: We know that we can often be the difference between independent life for our service users and their loved ones. Therefore, we plan our staffing rota in a way that ensures that a staff member will always be available to meet your care and support needs.
4. Person-Centred: We train our staff to deliver the best home care services focused on the service user with an emphasis on their dignity, and safety with compassion, empathy, and respect for individual preferences. We achieve this by involving the service user and their social circles as well as professionals involved in their care in our service delivery.
5. Community: As a small community business, we are always looking for ways to give back to our community including supporting local charities, giving priority of employment to local residents and offering work experience to the youth in our community to mentor and inspire them to pursue careers in the healthcare.

Quality Sleep for Better Health

A good night's rest is essential for physical and mental health, yet many people struggle to achieve it. Poor sleep can lead to a range of issues, from impaired daily function to clouded judgement and feelings of isolation. For those in vulnerable circumstances, such as the elderly or those with medical conditions, night care is just as important as daytime care.

All our clients are treated with the utmost dignity and respect, providing peace of mind for their loved ones.

Our night care service is often used following a stay in the hospital, a change in surroundings, or personal circumstances. If you're unsure about the level of night support you require, we'll review and assess your needs during the introductory stage of the support. This approach allows us to provide a service that's tailored to your unique needs and requirements.

Respite care

Taking a Break for Yourself and Your Loved One

Caring for a loved one can be a challenge that weighs heavily on your emotional, mental, and physical health. Taking time for yourself is crucial to recharge, relax, and provide quality care when needed. Respite care offers a break from your responsibilities as a primary caregiver, ensuring your loved one receives the care and support they need in your absence.

Respite care provides a less disruptive service than putting your loved one into temporary residential care. They can stay in their comfortable and familiar surroundings, allowing their home routines to remain in place. Our staff recognises the importance of planning this temporary care around your needs, ensuring a flexible and comfortable service.

Our respite care is a flexible service that can last between a few days and several weeks, depending on your situation and requirements. It can also be used in emergencies, such as if you fall ill or need to go to the hospital

Respite care is an excellent way to get a feel for what a home care service would look like and provide support with various conditions, including Alzheimer's, multiple sclerosis, strokes, cancer, and more.

Respite care is more financially affordable than residential care and allows your loved one to remain in their home. It's important to ask yourself if you need respite care and if your loved one requires assistance while you're away or on a break.

Our Process

STEP 1: OUTLINE YOUR NEEDS

Prestige Care Solutions offers a care team that is available to receive your inquiry and discuss your care needs. We will carefully review your requirements and provide you with information on our services, as well as an estimate of costs, to ensure that you have all the necessary details to make an informed decision.

STEP 2: IN-HOME ASSESSMENT

An assessor will visit you in your home to conduct an assessment, following which we will present you with a fully costed care package.

STEP 3: FINALISE YOUR CARE PACKAGE

We work in close collaboration with you and your family to finalise your care package and identify the most suitable carer. Our team will take you through the selection process and arrange for you to meet with the carer(s) before offering you the best match.

STEP 4: YOUR SERVICE BEGINS

We only begin service once all the stakeholders have agreed to the care package and carer selection. At Prestige Care Solutions, we take pride in providing high-quality care services that improve your quality of life. So, when we have finalised your care package and carer, we are excited to begin your service.
