

PURE HEALTH CARE PVT LTD

**COMMITTED TO PUTTING YOUR  
CARE NEEDS FIRST.**

# ABOUT US

Pure Healthcare stands by our promise to assist you in living the more fulfilling and self-sufficient life you deserve. We will provide you with carers to support you with your everyday requirements in the comfort and familiarity of your own home. Our experienced caregivers can't wait to use their skills and knowledge to help you get the care and support you need to reach your full potential.

We are dedicated to providing individuals in our community with high-quality care and support. Our care and support are aimed at keeping you in your home as comfortably as possible for as long as possible, allowing you to live more full days. We have a team of skilled health care professionals on hand to support you and make your life simpler.

We hope to make a difference in the lives of vulnerable individuals in our communities. Our purpose is to assist you and your loved ones attain your maximum potential in all areas of your life.

PURE HEALTH CARE PVT LTD

## OUR SERVICES

### PRIVATE LIVE-IN CARE

Our dedicated carer will reside in your house with you to provide round-the-clock care as part of our private live-in care service. This carer will always be there to provide a helping hand whenever it is needed.

We understand that being supported by or caring for a loved one with care needs can be challenging at times. Because of this, our customised live-in care is made to meet the needs, habits, and preferences of each of our clients, which are different from one another.

Pure Health Care Ltd's private live-in care will allow you and your loved ones to focus on what's most important: spending quality time together.

### DOMICILIARY CARE

Pure Health Care Pvt Ltd provides a wide range of domiciliary services to people in their homes. Our services are suitable for those who need help maintaining their quality of life and sense of autonomy.

Whether it be with basic housekeeping, personal care, or something else entirely, there is help available. We offer ongoing assistance that is tailored to your specific needs and habits.

Many families prefer domiciliary care because it allows them to regain control over the support they get. Our care plans are completely personalised for you, beginning with 30 minutes of one-on-one personal attention each week and progressing to several visits per day or overnight support.

## NIGHT CARE

What we mean by "night care" is having a carer stay at your home overnight to assist you with your regular tasks. Night Care gives people access to qualified professionals who can help with even the most complicated care needs 7 days a week.

If you or a loved one feels unsafe being left alone at night, you may need night care. Our night carers are highly trained and can help with things like going to the bathroom, giving medications, and moving the bed.

Because every person and situation is different, our night care is tailored to your specific requirements. With a dedicated night carer, support is always accessible. It means you or a loved one can stay in your own home, which is the most comfortable setting.

## RESPIRE CARE

Respite care is often a short-term package of care delivered by someone who is not the primary caregiver for your loved one. Pure Healthcare provides respite care in the comfort of your home. This allows you, as their primary caregiver, to rest and care for yourself so that you can better care for them.

We understand that in order to provide the best care for your loved one, you must also care for yourself. It is vital to rest and recuperate, as well as have someone you can trust watch for your loved one. Our carers are trustworthy, friendly, and well-trained, so you can relax and enjoy a well-deserved rest.

## PALLIATIVE CARE

We understand how difficult it may be to witness the effects of a terminal disease on a loved one. This is where we can assist. By providing specialised palliative care services, we can help your family make the most of their time together.

Palliative care at home allows you to stay in the comfort of your own home, surrounded by memories and loved ones. When appropriate, you can get specialised support and symptom relief for a serious illness from a caring carer with palliative care skills.

We offer a wide range of services for people suffering with diseases such as cancer or nausea and vomiting, whether you require a full-time live-in carer or monthly visits.

Our palliative care professionals follow national palliative care standards. Personal care, pain therapy for neurological and physical issues, medication administration, meal preparation, and companionship care are among them.

## SPECIALIST CARE

When you or someone you care about is dealing with major and persistent health issues, you may assume that assisted living or a nursing home are your only alternatives. The familiarity and comfort of home, however, can have a major influence on one's quality of life.

Thankfully, we offer specialised care to help you fulfil your medical needs at home. It's excellent, one-on-one care, support, and attention from outside the hospital. The best part is that Pure Healthcare exclusively employs trained medical professionals who have been carefully vetted to fulfil your loved one's unique needs.

## ***Providing High Quality, Flexible and Responsive Personal Care Services***
