D Class 3  
410.000 €

### RENOVATION WORKS TURNKEY

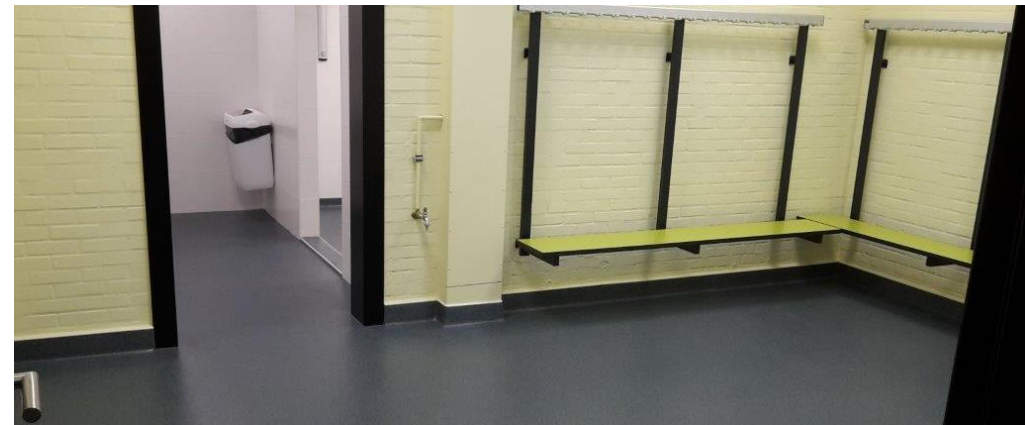

**RAMAST LTD CY** took charge of the turnkey renovation of the locker rooms and the sanitary rooms of the sports complex at Aarschot. Following the design of Peter Van Den Broeck arch. expertly with a sober but pronounced taste a magnificent new entity of sports rooms was realised in the existing building.

Besides the classical sanitary for ladies and gents also the appropriate disabled toilets were foreseen.

The locker rooms were alternatively performed in 2 phases with different colours.

Cast floors in acrylate, tiled walls for the shower rooms and lock chambers, partly in relief and partly flat, aluminum lamella ceilings, painted plastering and gyproc ceilings in the locker rooms, Trespa volkern cabins (high pressure laminate), Trespa sitting bancs, aluminum coat racks, all modern materials for a high standard result.

Besides the building structure and finishing the contract also dealt with the complete electrical installation and lighting, the sanitary plumbing, the delivery of a new air group and exhauster on a CO2-basis.
