1930 Zaventem

Construction period:

March 2013

Contract value:

D1 Class 1

A SECOND SPECIAL MITICULOUS AND COMPLEX CONCRETE WORK

With a rear look to projectsheet SA6 with January 2013 as construction time we announce with a certain proudness the complementary order that was almost immediately awarded to RAMAST BOUW LTD Cy by ASCO LTD Cy Belgium and this for performing an even more complex foundation as the one from the previous contract.

This complementary order consists of the realization of an extreme complicated whole of to be embedded reservoirs, molds and foundation strips into the existing concrete operational floor for again a new entity of engines for the airplane industry.

Entirely coming up to the by ASCO requested claims and company philosophy RAMAST BOUW LTD Cy performed as expected and on time, without any problem, the extreme precise sawing, reinforcement and concrete works :

- along with the running production,
- with the wanted precision,
- including the necessary dust screens
- with the expected safety measures.

A fine exemple of confidence and satisfaction of the client !
