- ▶ **Construction period:**
45 calendar days
Start of the works :
11 May 2005
- ▶ **Contract Value:**
259.200 €

THE ADVENTURE PATH IN THE ZONE "OCEANIA" A DESIGN & BUILT PROJECT

Early 2005 the Royal Zoological Society of Antwerp (KMDA) launched a price request for the establishment of a **conceptual design**, together with the **performance** of an adventure path in the animal parc Planckendael at Mechlin.

The major trump of the animal parc Planckendael is its natural character with a magnificent green scenery. In the frame of the one-day tourism the challenge of this assignment consisted in the design and construction of an adventure route to motivate the visitors to active interaction with the parc.

The by RAMAST LTD CY proposed theme did not only please the client, but also completely fitted into the budget frame, foreseen by KMDA for this. The order was consequently awarded to the previously named.

RAMAST LTD CY consecutively took charge of the making of all construction drawings, the installation of floates and pontoons, wooden finishings and decoration works, benches jetty's and so on....
