D Class 4

EDIFICATION OF THE BOOMERANG-ENTRANCE COMPLEX

In the framework of the fruitful cooperation in the past (refer to sheet SA5) the Royal Zoological Society of Antwerp (KMDA) entrusted in 2007, again after public price request to RAMAST LTD CY the order for the construction of the “Boomerang” entrance complex at the animal parc of Planckendael at Mechlin. In principal the complex serves as shop and entrance hal to the domain. In order to enabling the start of the works first the damming and emptying of a part of the pond was necessary.

The complex consists of three separate buildings with a trapezium for the pay desks, the member service and the First Aid.

The to RAMAST LTD CY entrusted works comprise all disciplines from the classical building frame to the entire decoration, fixed furniture, gaz installation, heating, electrical installation, fire detection, camera surveillance, acces control and lay-out of the settings, turnkey.
