▶ **Contract value:**
D Class 1

COVERING OF THE COURTYARD

The children daycare of the UZA at Edegem since a long time needed a small covered playground. After a restricted price request Ramast Ltd cy was charged with the contract to provide the existing patio with a modern shed roof construction. RAMAST LTD CONSTRUCTION CY performed this overall project in a limited construction time and under difficult circumstances, mainly the result of the enclosed position of the extension and the adjacent existing constructions.

Consecutively the following works were realised :

- Installation of laminated spans
- Unidek roof panels
- Zinc roofcover with standing seam
- Sun reflective double glazing
- Aluminum window entities
- Connection of the new construction to the existing one with Rhepanol roofing

All materials were lifted into the building site with the mobile crane over the existing roofs.
