Construction period:

August-December 2015

Contract value:

400.000 €

ROOF REPAIR AFTER STORM DAMAGE

The Chamber of Commerce Antwerp-Waasland is since a great deal of time located in the former "Hotel van Havre" in the Markgravestreet. This magnificent mansion with traditionae brick and sandstone stile is since 1986 protected as a monument. The house has a particular representative function through the rich interior decoration of the lobbies and parlours. The June 2014 hailstorm perforated the slate roofing, the zinc gutters and the led coverings. By the 2015 frost and thaw cycles the damage further extended causing the necessity for a treatment and performance of an extremely urgent restoration. In collaboration with the department Monuments and Landscapes **RAMAST LTD CONSTRUCTION CY BOUW NV** elaborated the necessary measures for a complete repair of the roofs. Consecutively the following works were performed :

- Installation of new natural slates
- New copper gutters
- New led ridges
- Alle connection work between old and new in order to achieve a full watertight amalgam of coverings
