Gin & Tonic

A classic long drink, refreshing and bittersweet. Juniper berries and citrus notes harmoniously balance the bitterness from the quinine in the tonic.

Mojito

Cuban classic! This rum-based drink has spread from Havana to the world and landed in Ransvik. Lime and mint balanced with the sweetness of cane sugar.

Manhattan

A version of the classic Manhattan! Beer distillate from Qvånum mat & malt that rested in Swedish oak barrels for three years. It is mixed together with a Chinato from the Italiann Andrea Scovero, flavored with cherries and star anise giving it a tad fruitier style.

Dry Martini

A dry gin with a simple juniper flavor composed with peppermint, quinine and Spanish Runaway (körvel) from the Swedish island of Möja. Vermouth and a dash of Swedish akvavit with traditional flavors of cumin, anise and fennel.

Negroni

Good gin, sweet Vermouth and a dash of bitters, ice and orange! It is said that this classic exists thanks to Colonel Camillo Negroni. He "created" it by asking the bartender in 1919 to spike his favorite cocktail, the Americano, by adding gin instead of soda water. Brilliant!

Bramble

Fresh and fruity! Here, gin is combined with lovely berries and citrus while a subtle note of coriander and sage gives the drink depth.

Red Spritz, Stockholms Bränneri,

The distillery's version of an Aperol spritz, with lovely sour bitter notes from lingonberries and rowan berries

Pink Paloma, Stockholms Bränneri

Pink gin and grapefruit. Sooo good! Tastes like a sour summer dream of rhubarb, blood grape and elderflower.

“REKO” – LOCAL & FAIR

To us, it's the only acceptable way to go. Free-range animals allowed to graze on rolling hills, fish free to explore the untamed sea, and grains nurtured by the rich soil of open fields.

We follow the seasons, we work with organic ingrediencies, we work and source locally, and we live for fair food ingrediencies –

We call it “REKO” food!

It's important to us to run our business sustainably, while never compromising on our food or our guests. Likewise, it is important for us to be able to offer a restaurant where our guests can feel that they can fully enjoy a meal experience with a clear conscience. This is why we put a premium on minimizing waste and to make conscious choices when it comes to our establishment and what we serve.

This is “REKO” - a focus on local, ecological and fair produce and living

Enjoy! / Andy, Matti, and staff
