

COVID-19 Response

Throughout the Coronavirus outbreak, the health, safety and wellbeing of our employees, our clients and our supply chain is of the highest importance as always.

The UK Government announced a countrywide lockdown on Monday 23rd March 2020. Rexhill ceased working immediately.

Over the next few days we developed new procedures for the health and safety of all people working with us. Alongside this we engaged with our client's sites on how they could operate during the pandemic.

We are continuously reviewing our health and safety processes in line with new information both from the government, industry bodies and our clients.

We also confirm we have complied with government's guidelines on managing the risk of COVID-19.

Five steps to safer working together:

We have carried out a **COVID-19 risk assessment** and shared the results with the people who work here

We have **cleaning, handwashing and hygiene procedures** in line with guidance

We have taken all reasonable steps to **help people work from home**

We have taken all reasonable steps to **maintain a 2m distance** in the workplace

Where people cannot be 2m apart, we have done everything practical to **manage transmission risk**
