

# **Royston Town FC Emergency Action Plan (EAP)**

## **Clun Address**

**Royston Town Football Club,  
Garden Walk,  
Royston,  
Hertfordshire,  
SG8 7HP**

***This EAP will be in place at all Royston Town FC men's first-team home fixtures***

Royston Town FC Physiotherapist – Juan Borrageiro

Home team treatment room/First aid room – towards the back of Royston FC dressing room or on the left-hand side before entering the clubhouse

## **Locations of medical equipment are as follows:**

Defibrillator – Home dugout and behind the bar in the clubhouse

Oxygen/Entonox – Home dugout

Stifneck Collar (C-spine) – Home dugout

Frac-Immobiliser/Vacuum Splint – Home dugout

Spinal board with head immobiliser – Inside home treatment room

Stretcher – In the tunnel, outside of the home dressing room

## **Please hold your arm in an “X” sign towards the home dugout for medical assistance on the pitch**

If a player is to be stretched from the field of play, they can be taken into the home team treatment room and monitored by their **OWN** team therapist. This is accessed by walking up the tunnel and turning right through the gate. Full support will be provided via Royston FC staff to assist.

Nearest Emergency Hospital (Emergency and Neuro)

Addenbrookes Hospital,  
Hills Road,  
Cambridge,  
CB2 0QQ

Approx journey time – 16 miles/24 mins

Alternative Trauma Hospital – Lister Hospital, Coreys Mill Lane, Stevenage, SG1 4AB

Ambulance access is gained via the main club entrance and will be directed to the location of the injured player by Royston FC staff
