Hej Bert&Ingrid, Snygg.

Vill påminna om att planen är att ha en mordernare fot, typ våtdräkt samt dito ringar för handskar typ Viking.

Detta borde leda till mindre materialåtgång om än marginellt, bifogar lite bilder från Ansells sida.

Hörs senare /HB

THE "BETHEL" DIVING DRESS AND HELMET

Photo No. 214

Photo No. 215

Though the above is practically out of date, Siebe's closed diving dress having superseded it, we are still occasionally asked to supply this pattern for shallow-water work.* This dress can also be fitted with Vulcanized India-rubber Collars, of any of the patterns illustrated in catalogue, and with Helmet to correspond.

*This type of Dress is fastened watertightly by means of metal bands clamping the jacket and trousers at the waist, the helmet being similarly secured at the neck of the jacket.
