Sunday 10th of October, Tossa de mar, the birthplace of scuba diving in Spain, was the perfect location for our vintage diving event. With the invaluable help of Kraken dive centre, our team managed to entertain a large crowd of enthusiast with a fantastic display of underwater cameras, double hose regulators, a Miller Dunn shallow water helmet along with its pump, books and many more interesting objects.

A very enjoyable day, and a fantastic atmosphere of colleagues and friends working together to promote the history of diving in Spain in a very practical manner.

Our thanks to all those who participated in the event, organizing, instructing or just enjoying the activities. Our aim is to continue on this path, and we look forward to seeing you in our next one.
