Ämne: Too old for diving?

Hello,

We have had no problem with that. My husband is just now in Raja Ampat in Indonesia diving for two weeks and he is getting 80 next week.

Last autumn we both was in Sulawesi, Indonesia, Dive into Lembeth and Tasik Ria diving, 79 and 78 years old. No problems.

Nowadays we go diving once a year since we stopped diving in cold water diving and during the pandemic period we couldn't go at all.

We have the privilege to know the people of the different dive sites since before but the age never seems to be a problem.

Best regards

Birgitta Forsén
