Hej Birgitta,

"Tack så mycket för din generositet".

I am one of the founder of the "Musée Frédéric Dumas" back in 1994. Last year, I decided to stop working and I decided to retire.

The former President of the Museum is now the Mayor of Sanary-sur-mer and he could not hold the lead of the Museum. As I was available he asked me to succeed him.

Thank you for the copy of Signallinan. Nice article about the French Mediterranean Historical tour. I will include it in our data base.

I follow the "Svensk Dykerihistorisk Förening" magazine for a long time and I am always impressed by the quality of your magazine and of the articles (I did a lot of discoveries, reading the numerous issues).

During my career, I went many times in Sweden. I was subsea Engineer in the Oil Industry, my speciality was Manned submersibles and ROVs. I am on the process to write a book on the "world" history of ROV with obviously mentions to the Swedish contribution.

The Museum mail box is very small and exposed to theft, so I propose you to rather send the book to my private address :

Pierre-Yves LE BIGOT
857A Chemin du Gourd
83110 Sanary-sur-mer
France

If a phone number is required for the shipment : +33 (0)6 13 21 83 66

Best Regards.

Pierre-Yves LE BIGOT,
Président du Musée Frédéric Dumas

Hello,

Thank you very much for your email.

Yes we do have some books in stock. We would very much appreciate sending you

a copy for the museum. Our society has a magazine Signallinan and our editor Staffan von Arbin travelled along the coast of the Mediterranean Sea some years ago and wrote an article of places of great interest for the readers.

Of course he visited your museum.

Enclosed find the copy of Signallinan with the article.

Next weekend I will send the book to you as a gift from one museum to another.

Best regards

Svensk Dykerhistorisk Förening

Birgitta Forsén, chairman
