till mig

sön 13 sep. 22:10 (för 23
timmar sedan)

Goedenavond Bert,

Long time no see indeed.

I reply from Sparreholm in Sweden, today I visited (now) our mutual friend Sten and his wife Kerstin in Linköping. Thanks for putting us in contact: such interesting people.

The canvas you are after is very difficult to find. The only sources I can think of are either the Chinese manufacturer of Diving Suits for the TF 12 and TF 3 helmets, but I doubt if they are willing to sell just the canvas. In Holland I have contact info when you want to give it a try. The other source would be for information: Philip Nathansen is currently manufacturing a new harness with countering for his Dräger 138 rebreather apparatus and he made the canvas for it himself. So when you could come up with the right cloth and ask Philip how to make it waterproof then this could be the easiest way to get the suit-material you need. I think you have Philip's email address, if not then just let me know and I will send it to you as soon as I am back in Holland: next weekend.

I hope this is of help.

Met vriendelijke groeten and hej då,

David
