Goedenavond David,

Quite some time we haven't been in touch!

I really hope you and your business have not been hit by the coronavirus that struck the world with such astonishing power. My family and I have so far managed to keep this naughty virus at a distance.

Now to the real reason for my mailing to you.

Being responsible for a group within the Swedish Historical Diving Society (SDHF) in Stockholm, in producing a replica of our old heavy diving suit, Carlsson-suit, I would like to ask you for help.

As can be seen from the enclosed photos it is obvious what kind of material, canvas, we need. It has to be double-sided rubberized canvas with the same structure and colour as the original.

We need at least a piece of canvas the size of 300x150 centimetres.

Preferably we would like to have new canvas to cover the total need to produce a new heavy diving suit according to enclosed photos.

In that case the need is for 2 pieces of 300x150 cm and one piece the size of 200x100 cm.

Would be grateful if you could hint me, us, where to lay hands on an appropriate canvas.

Best regards, met vriendelijke groet,
Bert (Westenberg)
