

ARBUTUS ANALYZER: INTRODUCTORY TRAINING

Learning objectives

The **Arbutus Analyzer introductory training** is a 3-day course and a comprehensive introduction to **Arbutus Analyzer** designed for novice users who want to learn the fundamentals needed to start using Analyzer. Through this thorough introduction and practice exercises, you will learn how to effectively use Analyzer to accomplish your audit and/or business objectives.

Key topics

- Detect gaps and control failures
- Discover duplicates in inconsistent data and duplicates that are similar but not exactly the same
- Access and reconcile data from various systems in order to identify potential issues
- Identify outliers and anomalies in transaction data
- Combine data from multiple source types in order to make comparisons between them
- Aggregate data to identify trends and exceptions
- Compare files to identify changes between two points in time
- Calculate elapsed times and isolate those outside bounds

Methodology

This Arbutus Analyzer introductory training is an **online, yet live**, and **instructor-led** course based on the Arbutus-issued training materials. The course incorporates hands-on activities which enhances the learning process by seeing how typical audit/data analysis tests are conducted in **Arbutus Analyzer**.

INTRODUCTORY TRAINING

- 3-day course
 - 24 CPEs
 - instructor-led
 - live, yet online
 - CET time zone
- Ideal for Europe & Africa

ARBUTUS ANALYZER

Whether it's helping to streamline the tax process for an entire country or turbocharging the evolution of an energy sector powerhouse's audit process, Arbutus is the engine that powers change.

Arbutus technology is leveraged heavily within areas such as Accounting, Audit, Compliance and Fraud Detection. Its speed, power and flexibility is what makes it relied upon by both the public and private sector in the pursuit of actionable results.

Open course training

Arbutus Software Inc. and its [network of worldwide partners](#) regularly organise this training as an **open course**. All our training sessions (both online and on-site) are conducted by [Arbutus Certified Trainers](#).
