

Dear Madam, Dear Sir,

I am writing to draw global attention to the case of Fatemeh Sepahri, an Iranian political activist who was the victim of serious human rights violations. She, under the control of the Islamic Republic Guard, is being denied essential medical care when she urgently needs it.

She is currently in imminent danger.

Fatemeh faced many difficulties and challenges throughout her life, but demonstrated remarkable resilience in the face of adversity. After losing her husband during the Iran-Iraq War, Fatemeh found herself embroiled in a custody battle where the court awarded custody of her child to her father-in-law against her wishes. This cruel decision further compounded his personal difficulties. Despite these challenges, Fatemeh remained courageous and steadfast in spirit, becoming the voice of those who suffered injustice.

However, it was her role as a political activist that led to the most serious violations of her human rights. Fatemeh expressed serious concerns about the regime's practices of illegal arrests, torture and extrajudicial executions of innocent Iranians. Additionally, she made a statement calling for the resignation of the Supreme Leader of the Islamic Republic, Ali Khamenei, and expressed support for Crown Prince Reza Pahlavi as his representative. By exercising her right to freedom of expression and association, Fatemeh was subjected to a completely unfair legal process.

She was sentenced to 18 years in prison for propaganda against the Islamic Republic, cooperating with hostile governments, insulting Ayatollah Khomeini and Ali Khamenei and plotting against national security. It is deeply concerning that she has been detained in prison since September 21, 2022, and reports suggest she is being denied adequate medical care, leading to a deterioration in her health.

We call on all organizations dedicated to the defense of human rights to act in the name of Fatemeh Sepahri. We implore you to diligently investigate her case, raise awareness of her situation, and demand justice for the violations she suffered.

Fatemeh Sepahri is a true symbol of defense of human rights and freedom. She believes that the Iranian people do not want the Islamic Republic regime because they are deprived of basic human rights, citizenship rights and well-being. Fatemeh Sepahri deserves the highest human rights awards and deserves to be a symbol of freedom on the international stage.

Fatemeh's story is a stark reminder of the practical difficulties faced by individuals grappling with personal loss and facing court decisions that may not align with their preferences. Furthermore, his case highlights the urgent need for protection and respect for freedom of expression and association in Iran.

We respectfully request your intervention to secure the release of Fatemeh Sepahri, guarantee her access to appropriate medical care, and guarantee her safety and well-being.

Thank you for your attention and prompt action in this matter.
