

Mrs. Linda Sachs

You are the perfect symbol of a turkey's personality traits

Do you know the turkey?

The same bird that changes color according to position, not according to its beliefs and identity

What you know in your culture is the right to freedom and the right to human rights, and no one will be able to dictate anything to you.

For Iranian women, coercion, law, torture and imprisonment.

Today in Iran, for your own personal benefit, you preferred not to listen to the voices of millions of women.

Do not see them as prisoners just for the right to freedom of choice.

Do you know Saba Kurd Afshari, Mojgan Keshavarz, Maryam Shariatmadari, Raheleh Ahmadi and thousands of others? Those who are in prison today just for choosing the right to cover and not wanting the obligatory hijab.

At 24, they are sentenced to 24 years in prison just for not wanting the dirty Chador you used.

And sit at the negotiating table and wear a headscarf and cover the obligatory hijab of the dictatorial system of the Islamic Republic, which is a sign of the humiliation of women in Iran, and speak for the betterment of culture !!!

And how ugly and dirty this is.

Do you know that in Islamic culture, shaking hands with a stranger man is forbidden?

But you did

Do you know that in Islamic culture, drinking wine and alcohol is forbidden and the ruling is flogging?

But you do

But you wear a Chador to pretend to respect the exchange of culture between the dictator and yourself, who claims human rights, and that is the quality of a turkey.

We at Sepidar Association strongly condemn your anti human right behavior.
