

CV | Mikael Björnfot

PROJECT MANAGER & DESIGNER

+46 (0)70-611 16 05 | mikael.bjornfot@sitelulea.se

Profile

Master of Science in Energy Engineering with a focus on efficiency. A reliable and communicative problem solver with experience in project management, engineering management, and mechanical construction in the mining and steel industries.

Strengths include project management, inspections, layout, and construction work.

Experience

Project Manager Facility Status, KA1 LKAB Kiruna

Responsible for project economics, preparation of drawing documents, third-party inspections, and structural calculations for facility KA1 in Kiruna.

Engineering Management Staircase Tower with Work Platform Inside Mine Shaft, KA1 LKAB Kiruna

Engineering manager for a new staircase tower for a mine shaft at processing plant 1 in Kiruna. The project involves construction in building, mechanical, electrical, and media. Challenging project due to the location of the staircase tower.

Engineering Management "Crane Safety Project", KA1/KA2 LKAB Kiruna

Project planning of safety-enhancing solution for work on overhead cranes in KA1 and KA2. Access, fall protection systems, procedures, risk analyses, action plans, etc.

Military Service as Soldier, Swedish Armed Forces

Experience working together in a group under difficult circumstances.
