| No                | No                | No                           |
| Weekly Injections | Weekly Injections | N/A                          |

Wegovy and Mounjaro are prescribed by our doctors exclusively for adults with a BMI over 30, or those with a BMI of 27 or higher who have at least one weight-related condition. This will be determined during your consultation. It is provided as part of a personalised weight management program where also be advised on dietary adjustments and physical activity.
