Teambuilding, corporate events and kick-offs!

Kronborg by Night

“Kronborg by Night”

This is an active “sensory” round inside of Kronborg Castle from 1 to 1.5 hours in length. This is a joint activity between Kronborg Castle and Snaphanerne.com and is scheduled outside of the normal opening hours for the castle. Therefore “Kronborg By Night” is perfect for larger groups in connection with a dinner at the castle.

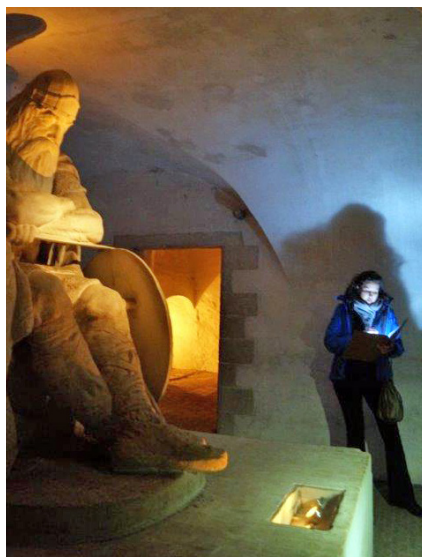

In all kinds of weather!

This activity is inside the castle, so weather is not an issue, and you can go from room to room with dry feet!

Job Assignments and Co-operation

Participants are divided into teams, co-operation on the teams is required, all of your senses will be stimulated, and you will be taken through Kronborg’s history on the round. Activities can include content related to music, taste-testing cakes made from Renaissance Age recipes, and other entertaining items relevant to Kronborg’s heritage. At the end, instructors from the Snaphanes will decide the winning team from points accumulated throughout the activity. Hamlet himself might show up to declare the winner!

In the Spirit of Kronborg

We emphasize cultural content and materials for our events that support the spirit of Kronborg.

Exclusive experiences that stimulate and challenge both the Danish and the international client.

We can also include visits to the casemates under the castle or up in the towers to your activity. We can customize the round for your group so it matches your needs and the time you have available.

Welcome to a fantastic experience at Kronborg Castle!
